Jurist Accused of Attempt to Frighten Witness

(Continued from First Page)

lives another as a criminal, the witness continued with his story, the defendant is convicted, and later freed, the aggrieved person can sue for damages at any time in later life and stands a good chance of collecting a heavy judgment.

### TOLD OF BURGLARY CASE

Moore testified that he then interposed, wanting to know that, if the identification was made in all sincerity, did the damage suit situation still hold true. Yes, indeed, Judge Hardy told him. Aside from sincerity there always was the threat of perjury and damage suits. Then, the witness said, Judge Hardy related just such an instance which occurred in his own court in a burglary case. This conversation lasted for two hours in a private office, the witness said.

Sewell did not inquire into the McPherson phase of the situation, neither did he bring out that Moore, six weeks later was a witness in the criminal case tried in the Municipal Court. But Carr did. He went after Moore like a bulldog as to how he managed to identify Ormiston, how good the lights were, where he stopped the Ormiston car, what the woman looked like and the witness told him that the woman wore glasses. At this point in the examination Carr asked:

"Where you as close to her as I am to Judge Hardy?"

"Not any closer," said Moore in explicit tones.

Carr then dragged out the transcript of Moore's testimony at the

## GIRL ROBS WITH "NITRO"

Brunette's Threat of Blast Causes Denver Bank Teller to Hand Over \$5000

DENVER, April 11. (P)—Threatening to blow up the bank with a package she said contained nitroglycerin, a well-dressed, pretty brunette obtained \$5000 in a single-handed hold-up of the Colorado State Bank this afternoon.

Walking up to a cage with the package in one hand and a match in the other, the woman passed a note to Teller C. E. Kenney which read: "Give me all the bills you have in the cage or I will touch off this bottle of nitroglycerin and blow you through the window."

The note was passed so quickly Kenney quickly gathered up several bundles of \$10 and \$20 bills. He pushed them out of the cage and the woman gathered them up and placed them calmly in a purse which she carried in her right hand with the match.

"Now, the rest of them," she demanded, fingering the match again. Kenney gathered up the remainder of the bills and passed them over. The woman placed them in her purse. "Don't say anything until I get outside," she cautioned. "I'd hate to see things up in here."

She then walked out of the bank. Kenney dashed into an adjoining cage to tell H. E. H. you please, which she carried in her right hand with the match.

Then the brunette declared, Kenney said: "Not five, you please, I prefer tens and twenties and larger."

HANDLED OVER CASH

Kenney took a handful of \$5 bills and shoved them through the window.

Then the brunette declared, Kenney said: "Not five, you please, I prefer tens and twenties and larger."

preliminary hearing of the McPherson criminal case to attempt to impeach his testimony here.

SEWELL TRIES TO IMPEACH

Sewell said he would stipulate to Moore's Los Angeles testimony and later prove why he testified that way. But this was not even his first move.

Mr. Carr, who was present on the witness stand, tried to impeach Moore by asking him to identify Ormiston, how good the lights were, where he stopped the Ormiston car, what the woman looked like and the witness told him that the woman wore glasses. At this point in the examination Carr asked:

"Where you as close to her as I am to Judge Hardy?"

"Not any closer," said Moore in explicit tones.

## REBEL LEADERS IN WAR COUNCIL

Abandonment of Naco Attack Subject of Discussion

Sonora Republic Reported Under Consideration

Topete Worried Over Stern American Warnings

(Continued from First Page)

the fight on Saturday. The soldiers told me the story in the trenches today. A Mayo Indian fell wounded in the cemetery during the charge on Saturday. When the order came to retire his little Indian buddy would not leave him. A company of infantry opened fire on him from behind the trenches. Finally they brought a machine gun into position and squirted bullets at him as though they were coming through a hose. The little Mayo lay down where his body would protect his wounded friend. He fought all the rest of the day. His fire was so accurate and so fast that, at last, no one in the trenches dared raise his head above the earthworks to shoot. When darkness came, he picked up his wounded friend and carried him away.

AIR FORCE PLANS

The rebels are suffering from without planes, now have three. Two are coming from Sonora; one is a large one from San Diego. The intention is to bomb the stuffing out of Escobar's army as it moves toward the state capital. A Federal force from Chihuahua is close on its heels in the pass.

There is doubt as to the strength of Escobar's army. He says he has 8000 men. The Federals say he has 1500.

## STATES DRAWN INTO OIL FIGHT

Government to Ask Help in Conservation Plan

Governors Will be Called on to Take Action

Secretary Wilbur Points to Perils of Wasting

BY ROBERT E. ARMSTRONG  
"Times" Staff Representative  
WASHINGTON, April 11. (Exclusive)—State action co-ordinated by the Federal government to prevent overproduction and waste in the oil industry was suggested by members of the Federal Oil-Conservation Board in a statement made public today.

In a letter addressed to R. C. Holmes, chairman of the general committee of the American Petroleum Institute, Secretary of the Interior Wilbur, acting as spokesman for the board, informed him that the institute's proposed restriction plan is illegal and informed him that the board has asked Dr. George Otis Smith, director of the Geological Survey to consider with the Geologists the leading oil-producing States on the question of State action on waste of oil and overproduction. It is understood that if the States can work out some satisfactory plan, Congress will be asked to pass legislation permitting the Federal government to coordinate the work of the individual States.

**PURPOSE OF BOARD TOLD**  
"Purely negative action does not cure the prime difficulty—the rapid waste of our oil resources," Dr. Wilbur wrote. "The purpose of the board has been to find a constructive method for the prevention of the present reckless waste of oil and it naturally sympathizes with every practicable step."

"As you are aware, the investigation of the board over the past few years have demonstrated large waste in the production and utilization of our oil and an alarming prospect as to our future supplies. "The conclusions in which it has been confirmed by scientific investigation and a considerable part of the industry were that in the long view the positive method of conservation is the initial control of development through the control of drilling to the end that upon discovery of a new oil pool a plan for its development should be established which would prevent the waste of gas, the consequent loss of gas pressures and its serious effect upon the total yield of the pool and to prevent other great losses which arise from the flush flows due to periodic overproduction from feverish competition and offset drilling, with its consequent unnecessary diversion of oil from gasoline to fuel on such occasions."

### AS TO REAL PROBLEM

"Had such control been in action during the last three years, not only would the present situation not have arisen but the vast present waste of oil by diversion from gasoline to fuel would not be taking place. While such a course could not be wholly applied to old pools, it could be made effective in new pools and new strata. It is upon this program that the board has sought co-operation of the industry. To solely close off production temporarily to relieve present congestion and stop the immediate waste of gasoline to fuel would not affect the real problem—that is, the long view wastes mentioned above. "It was determined by the legal advisory committee above mentioned that there are no constitutional grounds upon which the Federal government can impose such a regulation of drilling, but that the sole legal authority for such action lies within the State governments themselves. Suggestions were made

## BABY OFFERED IN LIEU OF FINE

Mother Who Stole for Her Seven Children Unable to Pay Penalty

GENEVA (Ill.) April 11. (AP)—Mrs. Sophia Maria, who stole \$27 to provide for her seven children, and who was caught, offered her youngest—a little brown-eyed girl—in payment of her fine yesterday. "I cannot pay," she told Justice Keiser. "If I had money I would not have stolen." She held the baby toward the justice. There was a catch in her voice and tears on her cheek as she said: "She's worth more than you can ever fine me, but you may have her." Justice Keiser spoke sternly: "Go home—and take your baby with you."

### TO CALL ON GOVERNORS

"The problem appears to be that the three or four principal oil-producing States, particularly in the Gulf States, are not in the mood to accept the board's plan. It is not possible for them to enter upon an interstate compact under the provisions of the Constitution authorizing such compact to which the Federal government, through Congressional action, would be a party. "The character of such a compact would need much consideration but it could well comprise creating a joint board for the purposes of constructive conservation and thus secure the nation from the very real peril that will lie in the reckless exhaustion of our oil resources. With this in view the board is planning to have Dr. George Otis Smith, on its behalf, visit and interview the Governors of three or four dominating oil-producing States and learn their views upon such a proposal. "It believes that the above suggestion, if it can be consummated on constructive lines, should extend the life of our oil resources and give greater stability to the industry, should vastly increase the returns to those States and at the same time should protect the consumer."

### Rival Unions Act in Textile Strike

NEW YORK, April 11. (AP)—Two rival textile unions are organizing support for the striking textile workers in the South. While the National Textile Workers' Union, a Communist organization now in control of the strike in North and South Carolina, discussed at a meeting the raising of relief funds, the executive council of the United Textile Workers of America, affiliated with the American Federation of Labor, arranged to enter the strike field. The federation organization adopted plans for an extensive unionization campaign among the strikers and the raising of a defense fund.

### Chilean Repays Hoover's Visit

WASHINGTON, April 11. (AP)—Pablo Ramirez, Minister of Finance of Chile and second only to the President of his country in political importance, today returned the courtesy of Mr. Hoover's visit to Chile by calling at the White House. He was presented to the President by Ambassador Davies. The three conversed together some time.

### KING'S DECK LACKS QUEEN

Boris May Have to Wed Grand Duchess as Match With Italian Princess Seems Impossible

SOFIA (Bulgaria) April 11. (AP)—Youthful King Boris, who seems bent on marrying, may have to take a Grand Duchess for a bride instead of a Princess. Religious obstacles seem destined to prevent his proposed wedding with Princess Giovanna of Italy and talk has arisen of a possible alliance with the Grand Duchess Kira. Vladimirovitch, 19 years of age, daughter of Grand Duke Cyril, recognized as head of the Romanoff family by many Russian royalists. Information in diplomatic circles here is that both the Vatican and the Bulgarian church have declined to yield sufficient ground to make the alliance with Princess Giovanna possible. It is said the Pope refused the Italian Princess's dispensation to marry King Boris unless offspring of the union are reared in the Roman Catholic faith. This would be inadmissible under the Bulgarian constitution, which stipulates that the heir to the throne must be a member of the Bulgarian orthodox church. It also is understood that the Vatican demanded the establishment of a papal nuncio in Sofia and the appointment by Rome of a number of Roman Catholic bishops in Bulgaria. This provides the Bulgarian government also considered unacceptable. Premier Mussoini is reported as favoring the alliance in disregard even of the Vatican condition. It is said, however, that King Boris disliked pressing his suit further when so much opposition at home and abroad has appeared to it. It is understood that his tour of the European capitals will end without the heralded visit to Rome, its abandonment being a consequence of the seeming impossibility of reconciling the divergent views of the two churches.

### BORIS WILL RETURN AT ONCE TO SOFIA

BERLIN, April 11. (AP)—King Boris of Bulgaria is expected here to return immediately to Sofia, capital

No Drinks to be Served on Initial Voyage

WASHINGTON, April 11. (AP)—Prohibition officials said tonight they had lost interest in the present trip of the Leviathan to Europe after the announcement from New York that no liquor will be sold, but they immediately became interested in later dispatches from the metropolis which indicated liquor may be sold hereafter on eastward voyages. The later New York announcement said that the public relations department of the new owners of the Leviathan said it is fair to assume that the huge liner will be dry only on its present eastward voyage and Commissioner Doran of the Prohibition Bureau when advised of this declared there will be no legal way the ship can sell intoxicants on outbound trips.

### NO EASTWARD SALES

Mr. Doran said that if liquor should be sold on eastward trips his department immediately will be contacted. There is no legal way for the Leviathan to get liquor for an eastward voyage, he added, as it cannot be brought into this country even under seal nor can it be brought in this country. Prohibition officials explained that the medicinal liquor on board the ship is obtained under Federal permit and must be issued by prescription of a physician just as is done on American soil. All medicinal liquor, they said, must be accounted for.

### BEULING MADE

It is entirely legal, they said, for a ship to take on a supply of liquor in a foreign port and serve it to the passengers until American waters are reached in its approach to the United States, when it would be necessary to dump overboard all liquor on board except that permitted for medicinal purposes. While the Supreme Court in a 1923 decision on cases brought by the Cunard and other steamship companies construed the prohibition amendment as precluding the bringing of liquor aboard ships into the territorial waters of the United States, it held that domestic merchant ships outside the waters of the United States are not covered by the prohibition amendment. Referring specifically to the contention that a merchant ship is a part of the territory of the country whose flag she flies and that therefore American ships on the high seas are subject to the prohibition amendment, the court said that such an assertion is "figure of speech, a metaphor."

### LIQUOR POLICY OUTLINED FOR SHIP

NEW YORK, April 11. (AP)—The liner Leviathan, queen of the American merchant marine, was plowing the waves today, still a dry boat under the orders of its new owners, but soon to lose its aridity by authority of those same owners. Joseph E. Stueby, executive vice-president of the line, said he had decided the new liquor policy of the Leviathan and that his orders to the stewards directed them not to sell the medicinal stores of liquor on present trip to Europe, but on the westward journey to sell liquor. While his statement covered specifically only the current round trip it clearly indicated that under the new orders, on subsequent trips liquor will be sold both ways outside the twelve-mile limit. There will be no bars on the United States Line boats, he said, because strong drink sometimes leads to strychnine poisoning and he wished to protect women passengers who, he seemed to think, will frequent the bar just as much as the men. But liquor will be served in state-rooms and at table, the only limit being the passengers' ability to pay for it by drink by some fashion. Those who show the effects of their drinking, it was said, will be served no more to drink.

## LONG INDICTED ON NEW COUNT

Louisiana House Acts on Bribe Attempt Charge

Testimony Taken on Others of Nineteen Accusations

Senate Gets Rules Report in Impeachment Case

BATON ROUGE (La.) April 11. (AP)—The Louisiana House of Representatives today formally impeached Gov. Huey P. Long for asserted attempts to bribe Legislators, and then launched into testimony on others of the nineteen counts against the youthful executive. The vote was 56 to 40. Specifically the charge is that the Governor offered Representatives Adolphe Guymard of Iberville Parish and Felix DeLaune of St. Charles remunerative employment in return for their support of administrative legislative measures.

The Senate, still as a high court of impeachment, reconvened at noon and heard its committee report on rules of procedure. Under the rules as presented, no charges will be tried until the House has filed all charges, with the provision that if the lower body has not completed its work by the 22nd inst., the Senate will fix a date of hearing on any articles adopted. The rules will be acted upon tomorrow. Mr. Long will be permitted to appear in court personally and through counsel. After the vote today the House impeachment managers announced that the vote on the count charging misuse of State funds will be taken tomorrow. Rev. J. V. Tinnin, pastor of the First Baptist Church, called to the stand to testify as to his knowledge of the charges that Long injected politics into the educational system, said the Governor once remarked to him that he had "rather talk about church girls than discuss the removal of a college president."

# HUNTINGTON PALISADES

"on Santa Monica Bay"

## "For Sale—The Pacific Ocean

"On Wednesday afternoon at 1 o'clock we will sell the Pacific Ocean, draped with the Western sky of scarlet and gold; we will sell a bay filled with white-winged ships. We will sell a Southern horizon rimmed with a choice collection of purple mountains carved in castles and turrets and domes. We will sell a frostless, bracing, warm—yet unanguid—air braided in and in with sunshine and adorned with the breath of flowers and the song of birds.

"The purchaser of this lot of climate and scenery will be presented with a deed to a piece of land 50x100 feet. The title to the land will be guaranteed by the present owner. The title to the ocean and the sunset, the hills and the clouds, the breath of the life-giving ozone, and the song of the birds is guaranteed by the Beneficent God who bestowed them in all their beauty and hitherto by Almighty warrant as an incorruptible hereditament to run with the land forever."

This speech by the late Tom Fitch in 1875 announcing the sale of one of the first homesites in Santa Monica is a vivid interpretation of the advantages that accrue with the purchase of a homesite in Huntington Palisades today.

## BILL FOR BLIND GIVEN PASSAGE

Assembly Approves Crowley Measure Unanimously

Sponsor Sightless Member of House from Suisun

Child Deserters Dealt Blow by Roland Legislation

SACRAMENTO, April 11. (AP)—Aid for California's needy blind, petitioned of the Legislature by Assemblyman Crowley, sightless member of Suisun, was voted unanimously today by the Assembly.

Under the Crowley bill the State would share, half and half, the present county burden of blind aid. Although the bill appropriates no set amount of State money, it has been estimated by A. R. Heron, State Director of Finance, that assistance to the 1500 to 2000 needy California blind will cost the State \$500,000 for the next biennium.

The measure calls for the creation of the State Blind Benefit Commission, charged with the duty of studying and applying methods of vocational aid as well as financial relief.

Parents deserting their children, immune from extradition since 1923 and liable to misdemeanor charges instead of charges of felony, were hit in the passage of a measure introduced by Assemblyman Roland of Alameda. Under the Roland bill judges may send heinous offenders to State prison.

Continuing a session which made it a hard day for criminals, Assemblyman Adams of Livingston brought about passage of a measure which would fine trespassers in- tending petty theft as much as those actually convicted. The law now provides that convicted petty thieves be fined twice as much as those convicted only of trespass and intent.

## Bills Passed by Assembly

SACRAMENTO, April 11. (AP)—The assembly today passed the following bills:

Assembly Bill No. 117, Crowley, establishing State aid for needy blind, raising salaries of auditor and assistant district auditor.

Assembly Bill No. 118, Brock, enlarging scope of criminal law by making it a misdemeanor to possess a firearm while under a judgment of conviction.

Assembly Bill No. 121, Woolwine, relating to duties of photographic reporters, creating the compensation of photographic reporters.

Assembly Bill No. 123, Woolwine, furthering State aid for needy blind, raising salaries of auditor and assistant district auditor.

Assembly Bill No. 124, Adams, authorizing the State to purchase land for the purpose of establishing a State hospital for the insane.

Assembly Bill No. 125, Adams, authorizing the State to purchase land for the purpose of establishing a State hospital for the insane.

Assembly Bill No. 126, Adams, authorizing the State to purchase land for the purpose of establishing a State hospital for the insane.

Assembly Bill No. 127, Adams, authorizing the State to purchase land for the purpose of establishing a State hospital for the insane.

Assembly Bill No. 128, Adams, authorizing the State to purchase land for the purpose of establishing a State hospital for the insane.

Assembly Bill No. 129, Adams, authorizing the State to purchase land for the purpose of establishing a State hospital for the insane.

Assembly Bill No. 130, Adams, authorizing the State to purchase land for the purpose of establishing a State hospital for the insane.

Assembly Bill No. 131, Adams, authorizing the State to purchase land for the purpose of establishing a State hospital for the insane.

Assembly Bill No. 132, Adams, authorizing the State to purchase land for the purpose of establishing a State hospital for the insane.

Assembly Bill No. 133, Adams, authorizing the State to purchase land for the purpose of establishing a State hospital for the insane.

Assembly Bill No. 134, Adams, authorizing the State to purchase land for the purpose of establishing a State hospital for the insane.

Assembly Bill No. 135, Adams, authorizing the State to purchase land for the purpose of establishing a State hospital for the insane.

Assembly Bill No. 136, Adams, authorizing the State to purchase land for the purpose of establishing a State hospital for the insane.

Assembly Bill No. 138, Adams, authorizing the State to purchase land for the purpose of establishing a State hospital for the insane.

Assembly Bill No. 139, Adams, authorizing the State to purchase land for the purpose of establishing a State hospital for the insane.

Assembly Bill No. 140, Adams, authorizing the State to purchase land for the purpose of establishing a State hospital for the insane.

## VISITING GIRLS MUST BEHAVE

Holland, Mich., Objects to Outside Women Who Smoke in Public

HOLLAND (Mich.) April 11. (Exclusive)—An edict against smoking cigarettes in hotel lobbies and other public places here has been directed by local police against girls from Grand Rapids and other cities who come here to do their smoking. The young women will be arrested if they fail to heed the order, the local police say.

It is intimated that Holland girls do not smoke.

Holland, which holds the record for more church-going people than any other city in Michigan, according to its population, does not take kindly to women visitors who smoke.

## ANGELENOS LOSE WAY, THEN LIVES

Two Die When Motor Car Plunges Into Irrigation Ditch Near Sacramento

SACRAMENTO, April 11. (AP)—Confused when they lost their way in a maze of roads, two Los Angeles oil men lost their lives and a third was injured last night when the automobile in which they were riding plunged into an irrigation ditch with ten feet of water in it.

The dead are William J. Beager, 63 years of age, geologist, 1270 1/2 Elysian Park avenue, Los Angeles. Frank Callahan, 40, oil company representative, 1437 West Sixty-seventh street, Los Angeles.

The injured, Louis Chasseau, 39, of 5200 South Simmons street, Los Angeles, a merchant, who was brought to the Emergency Hospital here and treated for lacerations of the head and hands.

The bodies of the two men were recovered about 4:30 o'clock and brought to Sacramento.

## Switching-Case Order Upheld

SAN FRANCISCO, April 11. (Exclusive)—The Railroad Commission today denied a rehearing of its previous order that California railroads must cease collecting a switching charge on freight subject to interchange, where the switching charge exceeds the line haul rate in connected territory. The application for rehearing had been made by the Southern Pacific, Santa Fe, Western Pacific, Pacific Electric and Los Angeles and Salt Lake (Union Pacific).

The commission believes its order will save several hundred thousand dollars annually to shippers and receivers of freight.

## Judge Extracts Jones Act Teeth

SACRAMENTO, April 11. (Exclusive)—"There is no reason to over-throw the Jones act," said Federal Judge Harold Louderback today in sentencing a man convicted under the Jones act to two months in jail and a \$500 fine.

"The purpose of any law," remarked the court, "is to stop the practice it inhibits."

John Crovile of Crovile was the man who drew the two months sentence, together with \$1 fine, while Frank Pierce of Stockton was given a sentence of six months.

## Party Would Run Segrave

LONDON, April 11. (Exclusive)—This morning's London Daily News states that the Conservative party has radioed an invitation to Maj. H. O. D. Segrave to contest a constituency in the coming general election. Maj. Segrave has not yet decided whether he will accept and will give his decision in a few days. It is believed, however, that he will accept the invitation.

Maj. Segrave recently broke the automobile speed record in an imported and specially built machine at Daytona Beach, Fla.

## Chicago Due for Closed Schools

CHICAGO, April 11. (AP)—H. Bruce Caldwell, president, has advised the Board of Education that without legislative relief Chicago public schools will be unable to reopen next September.

The board, meeting yesterday, authorized the issuance of a pamphlet to inform parents of the situation, described as desperate.

Announcement was made at the meeting that all Chicago public school playgrounds must be closed May 15 because of lack of funds for operation.

## Plane Carrier to Join Search

SYDNEY (N. S. W.) April 11. (AP)—The Australian seaplane carrier Albatross, with five planes aboard, today was ordered to participate in the search for Capt. Charles Kingsford-Smith and his three companions of the missing Southern Cross. So great is the distance around the eastern and northern coast of Australia that the Albatross hardly can arrive inside of a week.

## MATE ADMITS TORCH MURDER

Body Identified as Second Wife of Engineer

Names on Check Lead to Arrest and Confession

Prisoner Feared First Spouse Would Discover Marriage

ELIZABETH (N. J.) April 11. (Exclusive)—Henry Colin Campbell, a white-haired civil engineer, was arrested tonight following the identification today of the body of the torch murder victim found February 23, last, near Cranford, N. J., as that of Mrs. Benjamin S. Mowry. After a brief questioning he confessed he killed the woman, whom he had married last August in Maryland, police here announced.

Campbell said that he shot the woman, his second wife, and threw her body into the side of a road near Cranford. He then poured gasoline over his victim's clothing, set fire to it and fled in his automobile.

Campbell was seized as he was about to enter his home, not far from the morning in which his victim's body lay unidentified until today. He was taken to the Union county prosecutor's office, where he signed a confession.

## FIRST WIFE LIVING

Campbell is the father of three children. His first wife, mother of the children, still is living. "I couldn't afford two wives," was the reason he gave for taking his second wife's life.

He said he had met the woman he later killed through a matrimonial agency and had a personal interview with her in Washington, D. C., in February, 1928. The following August they were married at Elkton, Md.

On February 23, of this year, he said he drove with the former Mrs. Mowry to Springfield avenue, Cranford, and was seized with a sudden fear that his first wife would discover his other marriage. He shot the woman in the head and dragged her body to the roadside, dousing it with gasoline. Touching a match to the figure, he stepped back in his car and drove off.

## CHECK GIVES CLEW

The body was found that day by the driver of a bakery wagon and had lain unidentified at the morgue here until today when two women from Greenville, Pa., identified it as that of Mrs. Mowry, who left her Pennsylvania town last summer. Before she left she obtained a treasurer's check at a Greenville bank for the \$1000 she had on deposit there. That check was cashed at the National Bank of New Jersey in New Brunswick, in August, 1928, apparently while the woman was on her honeymoon.

It was indorsed by Mrs. Campbell as "Mrs. B. S. Mowry," and again signed underneath with the name "Mrs. R. C. Campbell."

Mrs. Margaret Brown, a 40-year-old, native of New York, was slain in February, 1928, near Bernardsville under somewhat similar circumstances. She was beaten unconscious with an automobile tool and her body thrown in the snow, drenched with gasoline and set afire. Her slayer sent authorities an envelope containing a \$1000 bond and a \$500 bill taken from his victim, but he has not been apprehended.

## Assembly Votes for Eugenic Bill

SACRAMENTO, April 11. (AP)—Extended controversy, close voting and a call of the House preceded passage by the Assembly of a bill by Assemblyman Jerome V. Scofield of Huntington Park calling for filing of affidavits by parties applying for a marriage license and attesting that they are free of social disease. The measure passed on a vote of 44 to 18.

Opposition to the bill was based upon the contention that it was not drastic enough. Opponents declared that there should be from registered physicians.

## Herrick's Body Nears America

WASHINGTON, April 11. (AP)—The Navy Department was advised by the commander of the French cruiser Tourville, which is bringing Ambassador Herrick's body to the United States, that the ship will arrive at Nantuxet Lighthouse, 200 miles from New York, at 8 p.m. tomorrow.

## HOOVER SILENT ON FARM BONUS

White House Statement Says  
More Study Needed

Senators Call to Obtain  
Export Bounty View

President Offers Services of  
Federal Experts

WASHINGTON, April 11. (AP)—A Senate agriculture subcommittee requested President Hoover to express himself today on the export bounty plan of the National Orange as a part of the new farm-relief bill, but the Chief Executive declined to give an offhand opinion.

Explaining that he had not time to study what the White House subsequently described as an "export bounty," the President reminded the five Senators who visited him that such a plan had not been considered in the drafting of the "farm-relief plank" by the Republican National Convention, and that it had not been discussed in the Presidential campaign.

There was a suggestion by one of the Senators that the Senate Agricultural Committee hold further hearings on the subject, so as to de-

## DRUNKEN FISH LEAD TO RAID

Their Odd Antics in Creek  
Cause Search That  
Reveals Still

TRENTON (N. J.) April 11. (Exclusive)—A trail of drunken fish, tottering in a stupified condition in the waters of Jacobs Creek, led to the discovery of a large still near Trenton Junction today.

State policemen, Federal agents and a game warden were struck by the strange actions of the fish, and suspected them of being intoxicated. All the fish were foundering upstream, round a corner into Woolsey's Creek, and on to where large harp of mack were being decanted into the water.

The police arrested two men, and found a dozen vats containing 50,000 gallons of mash in a barn on Christian Miller's farm.

develop the views of the farm organizations opposing the plan. In this connection Mr. Hoover offered to have government experts obtain for the committee information as to how such a plan has operated in other countries and to make their data available to the committee.

Hearings on the new farm bill, however, have been closed, and the committee is agreed definitely on the major features of the McNary bill introduced by Secretary Hyde, and there is little expectation that hearings will be resumed. The committee will meet tomorrow in executive session, however, to hear Agricultural Department experts discuss the bounty plan and later a tentative draft giving the proposed Federal Farm Board the optional right to invoke the plan will be drawn in anticipation of additional and more definite word from the White House.

## Inquiry of Texas Dry Force Opens

WASHINGTON, April 11. (AP)—Commissioner Doran announced today that the Prohibition Bureau is investigating charges involving the conduct of members of the prohibition force operating in Texas. The charges were made by Lee Shannon, formerly connected with the prohibition force.

Commissioner Doran declined to discuss the exact nature of the charges, but said that he expects to have a report ready within a short time.

## ROGER DRURY, IDAHO G.A.R. COMMANDER, DIES

MOSCOW (Idaho) April 11. (AP)—Roger P. Drury, 82 years of age, State commander of the Idaho Grand Army of the Republic, died here today.

## BORDER RULING AFFECTS NATIVE

Canadians Must Establish  
Immigrant Status

Medical Examination Visa  
and Head Fee Required

Unlimited Crossing Would  
be Allowed Then

WASHINGTON, April 11. (AP)—The recent ruling of the Supreme Court withholding border-crossing privileges from foreign-born citizens of Canada is construed by immigration service officials to have also a considerable effect on native-born Canadians.

Robt. Carl White, first Assistant Secretary of Labor, said today that while the court's ruling confirmed the admitted right of native-born Canadians to cross the international border at will, in so doing they would have to establish the status of immigrants under American law.

"The chief effect of that will be to require a Canadian to pay the \$8 head tax as an immigrant, and the \$10 consular visa fee," Mr. White explained. "The difficulties have been occasioned by the practice of Canadian residents along the border in obtaining employment in the United States and going to and from their foreign homes to work and back daily. The native Canadian, if he intends to continue such employment in the United States, will have to pay the fees and undergo medical examination, but once that is done he will have a practically unlimited right to border crossing."

## WEAKLING BABY SLAIN, HE ADMITS

Father Confesses, Stating  
Family Too Poor to Have  
More Than One Child

STOCKTON, April 11. (AP)—Harold Hash has confessed, police state, to the murder of his 3-day-old infant daughter, whose body was found yesterday in an iron tool chest beneath the cabin the family had occupied near Westpoint, Calaveras county. Mrs. Hash, whose conscience bothered her, she said, led the officers to the spot. She fainted as the tool box was dug out of the ground. The body now is in charge of Coroner Gandella of Calaveras county.

Hash, police state, said the family was "too poor and had to do something," after the second child was born. "I was weak," he said. He admits smothering the infant, according to statements made by the officers. The weather being stormy, it was decided to bury the infant without further ado, Hash related. Rude ceremonies were conducted and the body was buried beneath the rough board cabin.

## Foundation for Peace Honors Senator Borah

MOSCOW (Idaho) April 11. (AP)—Acceptance of a gift of \$55,000 from Salmon O. Levinson, Chicago attorney and prominent peace advocate, for the establishment of a "William Edgar Borah outlay of war foundation" at the University of Idaho, was announced here today by Dr. Frederick J. Kelly, president of the university.

The endowment was offered to perpetuate "the great contribution of William Edgar Borah to the cause of world peace and democracy." Levinson did not state what form the foundation should take.

## Proposed Curb on Island Sugar Imports Fought

WASHINGTON, April 11. (AP)—Opposition to the proposed restriction on the importation of sugar from the Philippine Islands was expressed to President Hoover today by Chairman Kiehl of the House Insular Committee.

When the proposal comes before the House, he said, it will go to the Ways and Means Committee rather than to his own group, and for this reason he wanted to make his opposition known to the President.

## Elevator Fall Ruling Reversed

SAN FRANCISCO, April 11. (AP)—Ruling that elevators are not public carriers, the State Supreme Court held today passengers injured while riding in them are not entitled to compensation under the traveler's accident insurance policies.

In its decision the Supreme Court reversed the ruling of this county's Superior Court, which held that Carl Ogburn, son of Byron Ogburn, who was killed in a fall down a hotel elevator shaft here, was entitled to remuneration on a traveler's accident policy.

## Dam Dedication Date Uncertain

WASHINGTON, April 11. (AP)—The Indian Bureau of the Interior Department announced here today that the date for the dedication of the Coolidge Dam in Arizona is uncertain.

It first was planned to dedicate the dam last September, but that date was changed to March, and since that time nothing definite has developed on the subject. It is said at the Indian Bureau that the proposed ceremony has died a natural death, but there is some hope of it being revived some time in the near future.

# Improved Double Cap Bottle Protection Provided by ARDEN Certified Milk....

THE MOST advanced type of milk bottle PROTECTION available is being offered milk users in the metal double cap used on Arden Certified Milk.

A rigidly supervised quality of milk has been assured the Southern California public for 23 years due to efforts of Arden Dairy, Inc. This institution faithfully pioneered the work of making dairy operations and milk handling a scientific matter. This work has been conducted in the interest of absolute sanitation and for the PROTECTION of discriminating users of only the best milk.

The unusual efforts of the Arden Dairy have won the confidence of the local public and the recognition of health authorities. Arden Milk has been awarded prize after prize in open competition—proof of leadership—as a scientific trail-blazer in the milk industry and ideals that have established it with the public as a popular favorite.

Two distinct public needs are filled by Arden Certified Milk. Arden Rich Table Milk is used for older children and adults. It has special nutritive and body building value. Arden Certified Holstein Milk is especially easy to digest and adapted for infant feeding and invalids—having smaller butter-fat globules and more closely resembling mother's milk. Both kinds are PROTECTED NATURAL WHOLE MILK.

This great step forward—to provide the utmost in positive cap PROTECTION for its milk bottles, as well as for PROTECTION of the milk itself—is in keeping with the spirit of public responsibility which is traditional with Arden and has made it the unquestionably successful leader it is today.

## What Double Cap Protection Means to You!

Metal double caps are a result of the effort to give the public sealed package PROTECTION in the most effective and fool-proof form.

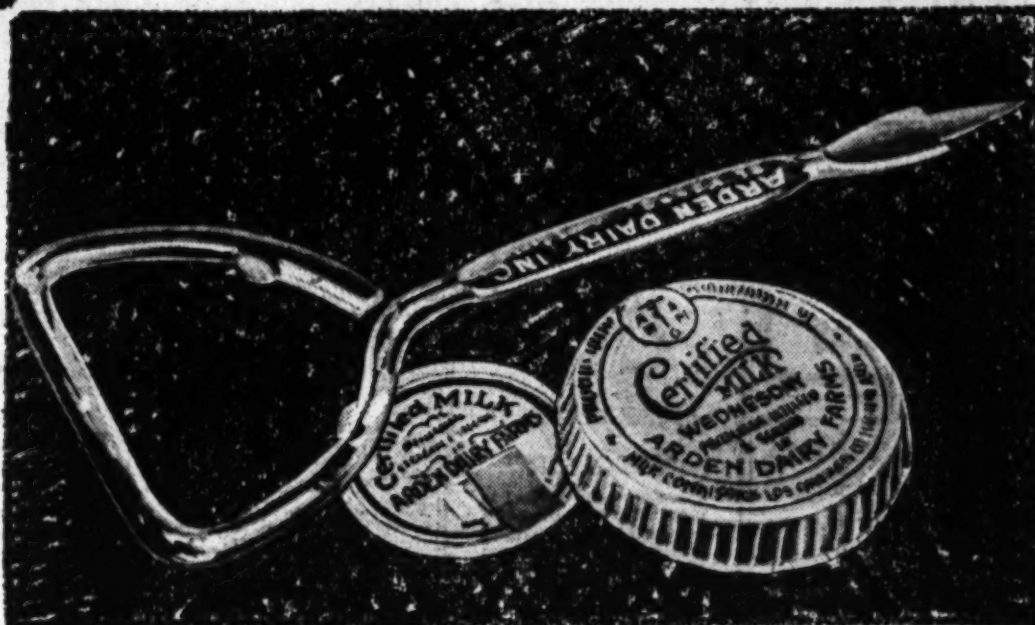

They are conveniently removed with the opener provided for your use by Arden. The paper inner cap is easily taken out by pulling on its special fibre lift or tab.

The need for double cap PROTECTION on milk bottles is obvious. Milk is a vital food. Arden Certified Milk is a superior product from healthy, selected herds, handled in a special scientific manner and produced and sold under strict supervision of the Medical

Milk Commission appointed by the Los Angeles County Medical Association.

The double cap simply gives double PROTECTION to your milk. You remove the outer cap. The inner cap has never been touched or exposed. This PROTECTION means much to those interested in safe-guarding health with an absolutely pure milk supply.

The metal double cap is simply the highest development of the double cap PROTECTIVE principle and Arden Certified Milk is offering it to the Southern California public.

## FITZGERALD'S

FOR THE ADVANCEMENT OF MUSIC

Henry Svedrofsky  
Concert Master.

By David Bingham

To be chosen Concert Master of the great Philharmonic Orchestra is a much coveted honor, sought by many. This honor came to Henry Svedrofsky in just recognition of his meritorious services over a long period of years. That he is admirably equipped to render the highest possible service is a matter of record. He brings to his new post the very highest musicianship, natural skill, and an intimate knowledge of the routine of the orchestra. His selection is pleasing to the men with whom he will work and to the music-loving public in general. Svedrofsky was one of the first prominent artists in the city to purchase a

reasons for  
SUB-DEB  
ECLAT

Mr. Michael Arlen once said "A girl in a yellow hat went by—like a daffodil in a hurry." There's the same flashing quality about these hats "Collegiate"—They're hats that do things and go places—They're casual and sophisticated! as the sub-deb's devilish car—You notice the hat (we regret the admission) almost before the wearer!

"RENDEZVOUS"  
This young person is one of those who arrive, when everyone else is dusty and edgy, in a perfect hat, whose pristine freshness endures any amount of packing. \$10."FAIRWAY"  
A very superior hat, indeed, this model by Alphonse! The Sub-Deb wears it as above—but, it's quite as effective turned down all around. \$10."PROMENADE"  
Do not be mistaken—the simplicity of this hat is very sophisticated—A hat that knows its sub-deb and improves the type. \$10."STROLLER"  
Was not, really, designed to hide sub-deb radiance—its purpose in life? Attracting admiring glances of course! Pleasant mission for a felt hat—\$10.(Millinery Collegiate)  
Third FloorVESSELS DENIED  
PACIFIC BUYERSProposed Line to Europe  
Delayed for YearFederal Board Refuses to  
Grant CharterDieselized Ships Assigned  
Eastern Company

WASHINGTON, April 11. (Exclusive)—The United States Shipping Board, which had indicated that it would adopt a resolution sanctioning a charter of seven dieselized vessels to West Coast shipping interests for the establishment of a line to British and North European ports, refused to make such a resolution at today's meeting, and instead approved an offer to Pacific Coast ship operators which will delay the beginning of a European service for at least another year.

The seven dieselized vessels which the board shortly will have available will be turned over to the Roosevelt Steamship Company of New York. In their place the West Coast interests which desire to establish the European service have been offered eight vessels "suitable for conversion" which the board offered to sell at a nominal cost in order that they may be equipped with Diesel engines at the expense of the operators. To aid in this reconditioning, the board suggests that 75 per cent of the amount needed more than \$1,000,000 per vessel, and the fleet would not be ready for service until some time in 1936.

**PURCHASE DOUBTFUL**  
It is doubtful whether either the group of Portland and Seattle operators represented by Guy M. Standifer of Portland, Or., or the Dollar Steamship Company of San Francisco, both of which made offers to charter the seven vessels now being dieselized, will be in a position to buy the ships now offered, and to equip them at their own expense, even with the aid of the proposed Shipping Board loan. The reasons assigned by members of the board who opposed the transfer of the available ships to the Pacific-European run were that those vessels would be too slow to compete with freight lines now in that service, that they lack the refrigeration equipment necessary to carry commodities in cold storage and that they are generally not of the type required. The Roosevelt Line, however, will be able to use them on its routes from the Atlantic Coast to the Far East, to India and Australia.

Pacific Coast Senators were dumfounded when the board refused to approve the resolution submitted by Commissioners Myers and Sandberg to establish the line to European ports immediately. They had counted on both Chairman Clegg and Commissioner Plummer to support the resolution and believed they had positive assurances from both members that they would do so. Instead both of them voted for the substitute resolution which was submitted by Commissioner Cone and evidently had been prepared in advance.

**ONE CONCESSION**  
That competition for the charter would have been even keener than originally anticipated is obvious from the fact that two more charter offers in addition to those from the West Coast companies, came to light at today's meeting. They were from the P. W. Chapman Company, which recently purchased the United States and American merchant lines and the Hawaiian Steamship Company, operated by the United States Steel Corporation. The Hawaiian company has had vessels in operation between the West Coast and European ports since 1916, and claims that this should entitle it to priority in the consideration of charter offers.

The one concession, which the board made in its resolution was to state that "a service from the Pacific Coast ports to the United Kingdom and the continent is essential to the foreign commerce of the United States."

Sensors McNary and Steiner are inclined to believe that the terms upon which the board has offered the desired line to the Pacific Coast probably would remove any possibility that either of the operators can establish it and Senator Jones of Washington sides with them. Senator Johnson of California was critical of the board's action and does not think it satisfactory. Commissioner Sandberg of Los Angeles seemed hopeful that some combination might be worked out on the Pacific Coast which capable operators will purchase the vessels which are offered and recondition them, even at the high cost involved.

Indians to Get  
Hearing on Land

MERCED, April 11. (AP)—Merced county Indians who were living June 1, 1852, and their descendants, were today invited to hear the United States government's plan for aiding them in a suit to recover the value of lands said to have been taken illegally from the Indians under treaties of 1851-52.

P. A. Baker, examiner of the Department of the Interior, will discuss the plans before the Indians on Monday.

Several millions of dollars are said to be due Indians in aid of treaties for lands taken under the treaties.

## FAMOUS ITALIANS SLIGHTED

New Academy Criticized for "Skipping" Six Noted  
Exponents of Modern Thought

ROME, April 11. (AP)—The new Italian Academy of thirty members, like its elder sister, the French Academy, already is coming in for considerable underground criticism, not so much because of the choice of its components, but of the notable omissions in its make-up.

Even as the French Academy in the late nineties refused to admit Emile Zola, the great realistic novelist, Alphonse Daudet, some of whose works circled the globe in all civilized languages, and Frederic Mistral, the mighty bard of Provence, the Italian counterpart of "the Old Lady by the Seine" (as the French Academy is irreverently known) has "skipped" six illustrious exponents of modern Italian thought.

**D'ANNUNZIO MISSING**  
The first omission on the list is that of Gabriele D'Annunzio, whose name in nearly four decades has focused more attention upon Italian letters than that of any other writer.

Guglielmo Ferrero, perhaps the greatest living historian of ancient Rome, universally known scholar, has not only been passed over by the academy, but is not even mentioned in the new Italian "Who's Who."

ARMAMENT  
WAR LOOMS  
IN GENEVASocialistic Group and  
Soviet Delegation to Urge  
Scrapping Guns

GENEVA, April 11. (AP)—Two announcements today warned Geneva that a new battle to cut the armaments of the world was about to open here.

One was that an important delegation of the international Socialist party will arrive on Monday to present a manifesto to the press urging world disarmament. The other was that the Soviet delegation has engaged an entire floor of a hotel near the conference meeting place, Maxim Litvinov, acting commissar for foreign affairs, who heads the delegation, last year invited the nations to disarm.

Newspaper correspondents are waiting with interest to see if the American delegate, Ambassador Gilson, has any suggestion and what also are attempting to discover if there is any foundation for the report that the British government may submit helpful suggestions.

Those of the American delegation now attending the international conference for suppression of armaments have been besieged for statements on the American program, but without result.

SUTHERLAND  
SCHEDULED  
TO REMAINAlien Property Custodian  
Will Continue to Serve  
Under Hoover

WASHINGTON, April 11. (AP)—Howard Sutherland is to continue as Alien Property Custodian under the Hoover administration.

In common with other Presidential appointees, Mr. Sutherland submitted his resignation at the close of the Coolidge administration. Today he conferred with Mr. Hoover for the first time since the latter's inauguration and afterward said the President is telling him he wants him to continue at his post.

Col. Lindbergh in  
North Carolina

GREENSBORO, N. C., April 11. (AP)—Col. Charles A. Lindbergh landed at the Greensboro Airport at about 5:45 o'clock this afternoon.

He expects to spend the night here, weather conditions making it hazardous to continue on to Washington or New York, one of which points was said to be his destination.

RATE CASE REVEALS  
PHONE OWNERSHIP

SAN FRANCISCO, April 11. (Exclusive)—In support of a contention that the American Telephone and Telegraph Company should be made a party to the Pacific Telephone and Telegraph Company's petitioned \$7,000,000 rate increase counsel for an association of Bay District telephone users today elicited information before the Railroad Commission that the A. T. & T. owns an average of 81.6 per cent of the stock of the Pacific Coast company. The testimony was from Col. F. Emerson Baker, consulting engineer for the Railroad Commission. His figure was an average of the preferred and common stock.

SWEDEN SENDS O.K.  
OF ANTIWAR TREATY

WASHINGTON, April 11. (AP)—Sweden's agreement of adherence to the multilateral anti-war treaty has reached the Swedish Legation here and soon will be deposited in the archives of the State Department. The Swedish Legation of the forty-nine nations invited to adhere which have completed their acceptance of the treaty. It will go in force as soon as ratifications of France and Japan are deposited.

OLD TABOR LUCK  
NOW AIDS WIDOWAgain She Rescues Mine  
from Mortgage GripFor Twenty Years Woman  
Has Never Lost FaithOnce Lived in Shack Near  
Leadville Property

DENVER, April 11. (AP)—Tabor luck, that became a by-word in the West with the rise to fame and fortune of the late Senator H. A. W. Tabor, has come to aid his penniless widow and enabled her again to save her famous Matchless Mine, the last remnant of the Tabor fortune.

From the mine site at Leadville, once famous gold camp, Mrs. Tabor, the former beautiful "Baby Doe," now withered by age and bent with poverty, came to Denver today with a new sparkle in her eyes to announce she will be able to redeem the mortgage on the mine due next Wednesday.

## FIFTH RECOVERY

Charles A. Erwin, Mrs. Tabor's attorney, said the present mortgage held by the Shorego Mining Company, will be paid. It will be the fifth time in twenty years that Mrs. Tabor has recovered the mine from its creditors at the eleventh hour.

Through the long period of her poverty she has clung tenaciously to the property which was the fountain from which millions of dollars poured into the pockets of Senator Tabor to make him the most romantic figure of the western boom days.

In her life time Mrs. Tabor was the pampered society butterfly who married Tabor at the height of his career. The President of the United States was the guest of honor at the wedding.

## SHE NEVER LOST FAITH

Mrs. Tabor determined there was more wealth to be had from the Matchless. In 1908 she went to Leadville and personally superintended the work of a few miners who sought to work the old mine. Her efforts failed and several times since she has been on the verge of losing her mine. Six months ago she was given a voluntary extension of the claim against the mine held by the Shorego Company.

For a time Mrs. Tabor lived in a shack at the mine. Recently she has spent her time in a shabby downtown rooming-house here.

Lately, there have been reports from Leadville of renewed activity, including the arrival of modern mining machinery, at the old Matchless Mine.

HONDURAN  
COMPLAINT  
DISCUSSEDSpokesmen for Republic  
and Officer Representing  
United States Confer

TEGUCIGALPA (Honduras) April 11. (AP)—American and Honduran representatives conferred today at Las Manos, Honduras, as to maintaining inviolability of Honduran territory during pursuit of Nicaraguan outlaws by United States marines.

The conferences took place after various incidents which Honduras officials charge were encroachments on this country's sovereignty. The most serious of these occurred recently when Las Limas, a Honduran town, was bombed by a marine corps plane. Honduran authorities heard the town caught fire after the bombing and was almost completely destroyed. Marines at Managua say one shack was burned.

This government yesterday filed protest at both the American and Nicaraguan legations in connection with the incident, charging also that American soldiers had crossed into Honduras from Nicaragua on three different occasions during the last few days. Two citizens of Honduras are said to have been killed and a number wounded.

Maj. Joseph A. Russell represented the United States Marine Corps at the conference at Las Manos. The Hondurans there were Jose Blas Henriquez, Undersecretary of the Interior, and Gen. Jose Antonio Sanchez, commanding the Honduran border troops.

Newly Bereaved  
Widow Ends Life

BAKERSFIELD, April 11.—Broken in health and despondent over the recent death of her husband, Mrs. Freda Carter, 50 years of age, a resident of this district twenty years, and widow of the late Joseph Carter, hanged herself in a doorway of her East Brundage Lane home yesterday. The lifeless body of the well-known matron was found by her three children as they returned home from high school.

"Please forgive me for what I am about to do. Please don't blame the children for they tried their best to comfort me but the burden seems too great to carry," was Mrs. Carter's last pathetic message to her friends and her children.

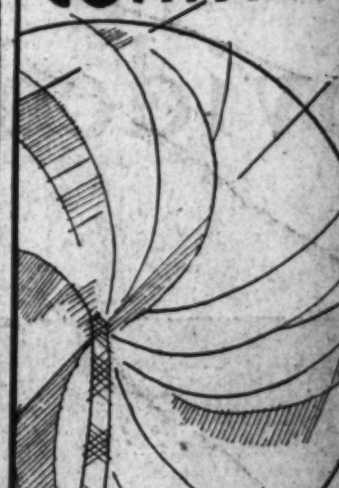

Mrs. Carter's husband died here two months ago. At the time Mrs. Carter was in poor health and she never recovered from the shock. Lonely, grief-stricken and despondent, she at times appeared irrational, according to friends and neighbors.

## PAPERS GO VIA PLANE

NEW YORK, April 11. (Exclusive)—The first transcontinental shipment of newspapers by airplane is to be started on its way when the Herald Tribune dispatches copies of a special spring announcement number of its literary supplement for Sunday to San Francisco for distribution there Monday to the members of the first Congress of Western Bookellers in session at the Sir Francis Drake Hotel.

Inman Divorce  
Testimony Ends

RENO, April 11. (AP)—Testimony was completed today in the Walker Inman divorce case, and the jury was dismissed until tomorrow, when instructions will be given to the jury, and arguments begun.

No. 8 in a Series explaining the "Added Values" of Palos Verdes Estates

## Residential Expansion -- the

## greatest of all "Added Values"

...for it guarantees future profits!

REAL ESTATE increases in value only because it improves in character. As it improves in character it takes on the "Added Values" of greater desirability, and in consequence, expansion and stability. Thus it provides greater security for both home-builder and investor.

Ten years ago Palos Verdes was ranch property, worth \$300 an acre. Today, with Four-and-a-Quarter Millions of Dollars already spent in improvements and with more than Two Millions in privately-owned homes, a conservative estimate of its average valuation is not less than \$10,000 an acre.

Showing actual land valuation increases since 1923 we give the following facts from a survey of single family residential view property recently made by the Eberle Economic Service:

An investigation was made of 57 lots, chosen at random from Palos Verdes records, and which were sold during 1923, or later, for a total of \$63,400. These 57 lots, in five years were all resold either once or twice each and by April, 1928 had actually realized \$156,155 — a buyers profit of 146% on the original prices!

Some of these investors made as high as three times the amount of their original investments.

At the time of the 1920 census the population of Beverly Hills was approximately the same as that of Palos Verdes today. Many investors who bought in that community have already received very handsome profits. Yet Palos Verdes offers even better opportunities for money making because it is being developed under one Basic Plan which controls expansion and protects the interests of both the individual owner and the community as a whole.

For this reason the next five years will see much larger valuation increases in Palos Verdes than ever before.

Residential expansion is the greatest of all "Added Values" for it means an ever-increasing profit for today's investor — who can still buy at "frontage" prices and immediately share in many privileges which no amount of money could buy elsewhere.

Visit the Estates today. Ask our representative to show you over the property and point out the homesites still available for purchase — at surprisingly low costs!

## AND ACTIVITIES AT LOS ANGELES HARBOR

### TOW BOAT LINE TO LINK PORTS

Red Stack Company Planning Interport Service

Points Around Bay Also to be on Regular Run

Dieselized Tug En Route Here to Start Enterprise

BY WAYNE B. CAYE

A shuttle service around the bay and between Los Angeles and Long Beach harbors is announced as imminent by the Red Stack Tow Boat Company.

Cargo will be picked up at any dock and transferred to other points in either of the two harbors.

Inaugurating the service will be the Dieselized tug Crowley No. 19 now en route from San Francisco to join the local Red Stack fleet.

Lighters are being towed down also, to augment the new enterprise.

The interport movement of cargo has grown to a point where heavy transfers occur daily of a size just under that justifying the shifting of a big ship, and it is this movement the new service will accommodate.

The barges are intended particularly for dispatch of case oil goods variously around the bay. The equipment is due at San Pedro tomorrow night.

**TUNA AGAIN RUNNING AT CAPE SAN LUCAS**

Yellowfin tuna are reported running at Cape San Lucas, Mexico, where a great Los Angeles fleet has been in vain six days, and the Flamingo returned here yesterday with seventy-five tons of the choice canning fish.

Several larger craft are en route here with loads, and the tug Sea Rover sailed for the cape yesterday to tow back Van Camp's big tender Mindanao with several hundred tons.

The three-masted schooner Melrose is lying at Halfpelt plant at Long Beach, ready to sail, and J. M. Drusky's new bait boat took the briny yesterday on her initial voyage.

Admiral John D. Alexander, in late yesterday from the north, reported the death of Frank H. Mitchell of 122 West Ninth street, Los Angeles, aboard the night before, apparently from acute indigestion. The body was removed to Los Angeles last night.

The twenty-four liners and freighters of the Adams Line, like the hopper, will change colors, due to an economy order just out. All will be painted black, instead of the vegetable green, characteristic of the line for years.

Three hundred and seventeen passengers will disembark from the Lasco flagship City of Los Angeles, due from Hawaii today. The vessel will anchor to pass plant quarantine at 8:30 a. m., and is expected at her dock two hours later.

Other liners in or out over the week-end, include Panama Mail steamer Ecuador out tomorrow for New York, with 150 travelers; the German motor liner Los Angeles, bringing fifty-five passengers from Europe tomorrow, and the Panama-Pacific electric liner California, due Monday from New York with several hundred passengers. On the latter is Miss Nellie Crowder, sister of Gen. E. H. Crowder, former ambassador to Cuba.

Negotiations were completed yesterday transferring the motorized tug schooner Ethel M. Sterling from Mrs. Nannie T. Baggett to the Santa Fe Mercantile Company of Los Angeles. The craft was bought by Mrs. Baggett, chief chicken rancher, two years ago but failed differently in the fishing trade and exploring ventures. The vessel now is at Aberdeen loading lumber for Australia, and Mrs. Baggett is planning to return to her old pursuits ashore.

Dan Cook has resigned as terminal agent for the Redwood Line at San Pedro, and is succeeded by Paul Pay, with a temporary appointment. Pay formerly was terminal agent for the Los Angeles and San Francisco Navigation Company.

The new Norwegian tank motorship Sydney, just completed at Newcastle-on-Tyne for T. Loddington of Oslo, arrived on her maiden voyage yesterday to carry 90,000 barrels of kerosene today for North China under time charter to the Shell Company. Sydney means South Sea, according to Mrs. Sydney, Mrs. C. H. Hansen, who used to have the Nordhav, a North Sea ship.

Capt. A. Alzaker, former master of the Kekoa, will sail tomorrow in the Johnson motor liner Martine Johnson, to bring back a yacht built in Germany for James S. Talbot, chairman of the board of the Johnson Motor Line. He is accompanied by M. W. Horn, chief engineer. Alzaker's post on the Kekoa is taken by Capt. M. E. Larson, former chief officer.

Eight cargo ships of six nations are due at General Steamship Corporation docks Monday and Tuesday. Monday will see the Swedish steamer Naxos in from India and the British motorship Silverfish from Dutch East Indies. Norwegian steamer Evanger from South America and the Italian liner Felia from home. Tuesday the Italian motor liner Colina will discharge passengers and freight from the Mediterranean; the French tanker La Marcellaise will load for Europe and the Japanese "K" Line steamers Belfast Maru and Norfolk Maru will "tangle" from the Orient.

More than 72,000 boxes of oranges, the Southland's premier shipment

**EAGELS ART OF ACTING DOMINANT**

"Letter" Is Sensational Thriller, With Portrayals as Main Lure

BY EDWIN SCHALLERT  
She is a feverish, flame-like personality. She fits into the sick, super-heated environment of the tropics. She is in fact—"The Letter."  
That's the estimate which one may place upon the talents of Jeanne Eagels in her latest screen adventure. She may be seen at the Paramount Theatre. And those who remember her from "Rain" will find her first talking picture excursion, as far as she herself is concerned, both vibrant and interesting.  
"The Letter" isn't a world wonder of a picture for entertainment. It is, indeed, a serious and at moments a repellent creation. It will come under that broad general heading of sophistication—which is a word that at times covers a multitude of unpleasantness. "The Letter" offers a share of that.  
This production is the East's first important contribution to the advancement of the audible film feature. It is 100 per cent English. English accent. If you are at all susceptible to the moods and tenors of conversation you will probably come out of the theater saying "ah" instead of "here" and "they-ah" instead of "there." Why in heaven's name can't talkies get down to good old-fashioned American!

Aside from this verbal sub-bomb, "The Letter" has plenty of dramatic punch and suspense. It ends very badly, almost comically, 'tis true, but anyway the majority of its scenes have genuine intensity. A woman's shooting of her lover, her hypocrisy on the witness stand where she tells of killing the man in self-defense, her encountering of a cordial blackmailing plot, engineered by a Chinese hamamora of the dead man, all furnish very realistic and absorbing situations.  
As if that were not sufficient there is introduced a symbolic fight to the death between a cobra and a mongoose. The audience could well be spared this ghastly bit of symbolism. It is about as offensive as anything on the screen can be. I think that people will go to see "The Letter" and that they will talk about it. On the other hand, I don't believe that they will particularly like the picture in retrospect. The acting is, in all, the most compensating memory, for Miss Eagels' performance is exceedingly worth while, and she has complete sympathy from O. P. Heggie, Reginald Owen, Lady Tien Mei and Herbert Marshall.  
In respect to the direction of Jean de Limour, who I believe, is new in this field, the production shows a rather high degree of adequacy. The action in more recent pictures made pictures is, however, considerably freer. The story of "The Letter" is by W. Somerset Maugham, and was adapted by Garrett Fort.

The stage entertainment is about as light as the picture is heavy and serious. The Phelps Twins, singing and dancing, Joseph Griffin warbling "The Song I Love" and "Weary River," and chiefly and above all the chorus, Perry Corvey, supply plenty of enjoyment. The chorus numbers are very well staged, and come to a bright close with the "Topsy Turvy Town Carnival" that looks just like its name.

**Elmer Harris's "Merry Wives" to be Produced**  
"Merry Wives," a new comedy from the pen of Elmer Harris, will be presented in Hollywood this summer, according to advices from New York, with Edgar MacGregor named as the producer.  
This piece by the author of "The Great Neck," the success which opened here at the Belasco, will have its eastern premiere in Atlantic City May 13, going into the Fulton Theater, New York, the following week. The cast includes Mary Nash, Miner Watson, Johnny Howard, Herbert Corbitt and Hale Hamilton.

Following "Merry Wives," the Shuberts will produce another play of Harris's, "Footsteps," a study of adolescence when John B. Lewis has praised highly in its manuscript form. Another Shubert project is "Temptation," also by Harris, described as a study of love in its various phases from the standpoint of psychoanalysis, and adapted from the French.

**WOODWARD TELLS OF PARKING AND PLANS**  
O. D. Woodward announced today that there will be free parking for all patrons attending his productions, beginning with the opening of "The High Road" tomorrow night at the Hollywood Music Box. It will only be necessary for patrons to drive their cars into the large parking space across from the theater and leave them with the attendant.  
The opening of "The High Road" at the Music Box marks Woodward's new policy of first-class productions at popular prices. Already he has an ambitious program of plays, including "Holiday," "Paris Bound," "Tonight at Twelve" and others which have been part of the New York season, to follow "The High Road" presentation.

**JOINS "JEALOUSY" CAST**  
Virginia Chauvenet, who was with Jeanne Eagels in the New York production of "Her Cardboard Lover," has joined the company with Miss Eagels making "Jealousy" as a talking picture at Paramount's Long Island studio. She will play the part of a maid.

**"Tide of Empire" Shown as New Feature; Sound But No Dialogue**

BY PHILIP H. SCHUEER  
Eloquent only in the larger sense that its shifting scenes spoke for themselves, though its actors did not, "Tide of Empire" swept across the screen yesterday at Loew's State Theatre. It is a silent picture—one is almost tempted to say "an old-fashioned silent picture," so rapidly are the familiar and accepted standards crashing to oblivion—if one except the music score by the Capitol Grand Orchestra and the heterogeneous noises attached thereto. It is also a spectacle, and as such possesses most of the strength as well as the weaknesses of this type of film.  
Metro-Goldwyn-Mayer might with some justification have called it "The Trail of '49." For "Tide of Empire" is a drama of the California gold rush; and its theme is always bigger than any of its protagonists. As with most deliberate epics, the producers have found themselves face to face with their own inability to see the forest for the trees, so to speak; or to put it another way, their inability to tell the love story of Josephine and Dermot D'Arcy without losing it in the welter of much more vital, history-making events which were taking place all around it.  
The usual, they compromised. Adopting a formula which has been in service ever since D. W. Griffith made "The Birth of a Nation," they used the camera for panoramic effects primarily, returning to their hero and heroine whenever an excuse presented itself to do so, and with some competence evolved a motion picture which is often impressive, always colorful and continuously interesting, if not especially graceful.  
Allan Dwan has directed this Peter B. Kyne narrative with his usual facility, and competent performances may be credited to Renee Adgée and George Duray, as the lovers; George Fawcett, William Collier, Jr., James Bradbury, Sr., Fred Kohler, Harry Crisp and Paul Hurst. On the historic side of the ledger, peculiarly enough, the most telling stands out in retrospect as a crudely painted sign which proclaims that "two gentes named Wells and Fargo" are prepared to forward the first shipment of gold to the mint at Philadelphia.  
Now that the style in jazz bands makes more and more demands upon the players' skill as comedians, acrobats and what-not, and less and less upon their musicianship, Horace Heidt's Californians may be said to have been triumphantly successful in their debut yesterday on the stage at Loew's. Not, of course, that Mr. Heidt's boys are lacking in skill with their instruments, but just that they haven't much opportunity to demonstrate it. They harmonize vocally, they dance they sing, they have out a so-called "police dog" which is quite the star of their aggregation—but for music, per se, they are little.

Rube Wolk also presents a new popular ditty which sounds almost exactly like "Magnolia," an old popular ditty; he cavorts on a runway which surrounds the orchestra pit; and he leads his own band through "The Poet and the Old Blacksmith," which he calls a classic—ave the mark!

**Ted Lewis Will be Guest Artist**  
Representing stageland as guest artists will be Ted Lewis, vaudeville headliner, at tomorrow's midnight matinee of "The Broadway Melody," at which Charles King will represent movieland as guest of honor, according to an announcement just made by Sid Grauman.  
Taking part in the impromptu festivities in connection with the special late-hour show at Grauman's Chinese will be the Brox Sisters, well known on both stage and screen, who have rehearsed a group of Irving Berlin's latest songs especially for the program.

**Egan to Reopen With New Play**  
Of interest to theatergoers comes the announcement from Tom Egan of the awaited reopening of the newly decorated and refurbished Egan Theater on the 20th inst. with the production of Hunter Keasey's comedy-drama, "Illegitimate."  
Wanda Hawley has been engaged to play the leading role in the production with an exceptional cast promised in support.

**COMPENDIUM OF ALL HUMOR—THAT'S SKID**  
"If you took all the best lines from all of the best roles you ever had played you would have something like the part of Skid in the play called 'Burlesque,' asserts Hal Skelly, the comedian, who is playing the leading role in the production with an exceptional cast promised in support.

**ABOUT A LADY WHO FIRES**  
"The Lady Lies," with Walter Huston and Claudette Colbert in the leading roles, will be the next talking feature production at the Paramount, "Tide of Empire" stage. It will be directed by Hobart Henley. The two leading players won fame together in their Broadway stage hit, "The Lady Lies," and the picture is taken from the play of the same name, written by John Meerhan, which was produced in New York last November.

**VERA REYNOLDS DANCES**  
Mentorally deserting the movies, Vera Reynolds will be guest star of honor tonight at the Orpheum, presenting a special dance feature with Antonio DeMarco.  
The Delaney, Antonio and Nina, will be held over for a second week starting Sunday.

**GERMANY GIVES HER SIDE OF IT**

The grim spectacle of World War, as recorded by German cameras in German trenches and from a strictly Teutonic angle, is unfolded on the screen of the Boulevard this week under the title of "Behind the German Lines."  
Somewhat tedious at times, with constantly recurring scenes of dreadful carnage and bloodshed, the production is none the less exceedingly interesting from two viewpoints.  
First, it gives a unified and bird's-eye view of the war as a whole, showing progress of battle on both eastern and western fronts from the start of hostilities in 1914. Second, it presents the war as the Germans saw it.  
It might be said that it is something like a history review lesson—a little hard to take perhaps, but good to know and to think about. The film dates back to war days and naturally is not the clear-cut product of today, although, of course, its very antiquity adds to its interest. The progress of the various campaigns, the Von Hindenburg offensive, the great battle of the Marne, the deadlock at the River Aisne are graphically illustrated by moving maps showing the troops as advancing or retreating checkers on a checkerboard.  
Produced by the German U.F.A. organization, the film is released in this country by Paramount. It fills about an hour and a half showing time.  
Benny Rubin is the new master of ceremonies on the Boulevard stage. His opening last night proved one of these merry, frolicsome events with Rubin dispensing pleasant wisecracks and songs. Euse Blake of Sisle and Blake and "Broadway Jones" do pianoliques, with Davis and LaRue furnishing eccentric dances. There are novelty chorus numbers by the Boulevard girls.

**KRUEGER IN VICTORY AT AUDITORIUM**

Authoritative Conducting Felt in Works of Debussy, Beethoven and Others

BY ISABEL MORSE JONES  
Karl Krueger led the Philharmonic Orchestra to victory in a splendid program at the Auditorium last night. It is an achievement to triumph over a concert list of Weber's overture to "Oberon," the two nocturnes of Debussy, "Clouds" and "Festivals," "Don Juan," by Strauss and Beethoven's fifth symphony. Krueger's playing was authoritative, positive and utterly sincere. He is a man of great intelligence, not a man of emotions primarily, but the feeling he puts into his interpretations has all the more power because he never relaxes his control.

The discriminating and skillful way in which this program was assembled attracted attention and held it. "Oberon" was metamorphosed from a concert list of "horse" to dreamy loveliness that gave the wind instruments freedom for their artistry and the spirited musical description of a mighty ocean. Quality of tone is not especially stressed by the Seattle conductor, but clean articulation, tasteful phrasing and no deviation from the composer's indications, are all of particular importance to him.  
The two nocturnes, "Festivals" and "Clouds," by Debussy were interesting in contrast. According to Krueger the "clouds" were beautiful white images trailing slowly, very slowly across a Mediterranean sky. The "Festivals" were brilliant, gay and theatrical in the best sense. The procession took on the pomp and glory of a march of eastern potentates.  
"Don Juan" had the true Straussian flavor. One felt the enormous, gifted, youthful composer back of this work with its marvelous fusion, colorful instrumentation and melodic beauty. Krueger's reading revealed the score purged of exhibitionism.  
The immortal "Rigo" was given a straightforward performance. It was a direct and clear exposition of Beethoven and felt gratefully on my ears. This conductor approaches the master's work with reverence and with understanding. He is accustomed to the rarest air of Mt. Olympus because his thoughts seek the heights naturally and when he conducts Beethoven he hears the music of a man he loves and comprehends.

The program will be repeated this afternoon.  
**SOUND TO BE IMPORTED**  
The sound of the chiming of Big Ben, England's traditional clock tower, is to be imported across an ocean and a continent for inclusion in a motion picture. The boom of the huge bells is to be photographed by London representatives of the Paramount studios and the sound film will be sent to Hollywood for Richard Dix's next all-talking Paramount picture, "Life." The bells will be heard from the screen in the opening sequence of the production, which takes place on the embankment of the Thames under the shadow of the parliamentary towers.

### REDONDO SEEKS ANOTHER TITLE

"Pacific City" Suggested  
Renaming Plan  
Union With Manhattan  
Hermosa in Offing

CHAMBER URGES IDEAS TO  
Municipal Squabbles

REDONDO BEACH, April 11.—A campaign to change the name of this municipality to Pacific City is being conducted by a group of local business men. The group, which includes the Chamber of Commerce, is seeking to secure a new title for the city. The current name, Redondo Beach, is considered by many to be a disadvantage. The proposed name, Pacific City, is believed to be more attractive and to better represent the city's location on the Pacific coast. The campaign is being conducted through the use of public meetings and the distribution of literature. The group is also seeking to secure the support of the state legislature. The current name, Redondo Beach, is believed to be a disadvantage. The proposed name, Pacific City, is believed to be more attractive and to better represent the city's location on the Pacific coast. ### SINCLAIR OIL REGISTERS HIGHER NET

Earnings in 1928 Equal to \$2.70 Per Share; Reduction in Funded Debt Shown

NEW YORK, April 11. (Exclusive)—Net earnings of the Sinclair Consolidated Oil Corporation for the quarter ended March 31, 1929, were \$1,100,000, or \$2.70 per share, compared with \$1,000,000, or \$2.30 per share, for the same quarter of 1928. The company also reported a reduction in its funded debt from \$1,000,000 to \$800,000.

### Comet Engine Taken Over by New Concern

Organization of the Comet Engine Corporation under the laws of Delaware to acquire all the outstanding stock of the Aircraft Engine Corporation of California, which manufactures the 150-horsepower seven-cylinder radial air-cooled Comet engine, was announced yesterday.

### Chief of Loan League in City

Walter F. McDowell, Tacoma, president of the United States League of Building and Loan Associations, arrived in Los Angeles yesterday for a week's visit with California and national league members in the interest of the movement. Mr. McDowell spent the fore part of the week in Salt Lake City, conferring with officers of the league, R. Holby Myers, Los Angeles, and H. F. Collins, Cincinnati, regarding plans for the annual convention to be held in that city August 26, 27, 28 and 29.

### LOAN TOTAL RISES FOR ASSOCIATIONS

Combined loans of the Guaranty, the United States and the Hollywood Mutual building loan associations totaled \$9,539,333.49 on the 1st inst., as against \$6,294,136.83 on April 1, 1928, an increase of 53 per cent. It was announced yesterday that the Guaranty loans in force amounted to \$5,905,707, a gain of 37 per cent; United States total was \$2,349,178, a gain of 9.7 per cent; and Hollywood Mutual loans amounted to \$1,284,448, up 79 per cent.

### ARIZONA UTILITIES ACTIVE

Holding Companies Now Control All Large Properties in State; Copper Boom Boosts Volume

BY ELMER E. CROWE

Sale of the Arizona Power Company to the Commonwealth Utilities Corporation removes the last large independent from the public utility field in that State. One by one the pioneer properties have passed into the hands of the large public utility holding companies, until some of the strongest in the country have become identified with the development of Arizona. The latest transaction ties up a group of St. Louis capitalists with the economic future of the State.

### FIGURES ON SECURITIES LOANS DROP

Decrease for Week of \$134,000,000 Shown in Reserve Bank Report

WASHINGTON, April 11. (AP)—Loans to brokers and dealers held by the New York Federal Reserve Bank for the week ending April 11, 1929, were \$1,144,000,000, compared with \$1,278,000,000 for the week ending March 25, 1929. The decrease of \$134,000,000 was the largest since the week ending January 15, 1929, when the loans were \$1,382,000,000.

### Leo S. Chandler Quits Post With California Bank

Resignation of Leo S. Chandler as president of the California Bank, a subsidiary of the California Trust Company, was announced yesterday by A. M. Chaffey, president of the bank and vice-president of the trust company. Mr. Chandler will join the law firm of Chandler, Wright & Ward, of which his brother, Jefferson P. Chandler, is the senior partner.

### Day Cut From Time of Fruit Trains to East

Twenty-four hours have been cut from the running time of fast east-bound California fruit and vegetable trains, according to announcement made yesterday by J. E. Waller, assistant vice-president of the Pennsylvania Railroad. The reduction is the result of a new schedule of train times which will be in effect on May 1.

### Libby-McNeill Earnings Soar

Net earnings of Libby, McNeill & Libby for the fiscal year ended March 2, last, according to the annual report released yesterday, amounted to \$3,012,288.12, equal after preferred dividends to \$2.80 a share on 675,000 shares of common stock outstanding as compared with \$1,775,375.70, or 76 cents a share for the preceding fiscal year.

### Big Board Puts Ban on Broker

NEW YORK, April 11. (AP)—Hubert M. Schott of Schott & Huber, a member of the New York Stock Exchange, was suspended from the exchange today for one year. The suspension was under the regulations in the constitution which state "no employee (of a member) shall be paid other than a fixed salary not varying with the business of the member, unless the prior written approval thereof shall have been given by the committee on quotations and compensation."

### OIL CHIEF OPTIMISTIC ON OUTLOOK

Official of Rio Grande Anticipates Solution of Curtailment Problem

In view of the marked change in the mental attitude of executives in the oil industry toward conservation and curtailment programs, as evidenced in recent months, the industry can expect that some satisfactory solution of the problem will be reached, Charles B. Jones, vice-president and treasurer of the Rio Grande Oil Company, said yesterday. Mr. Jones and L. M. Lockhart, also vice-president of the company, returned from New York Monday in a Pucker airplane the company has purchased.

### Underwriters in New Kinner Deal Pull Out

Eastern bankers who were to have underwritten new financing under the proposed reorganization of Kinner Airplane and Motor Corporation have asked to be relieved of their commitments in the deal, Robert E. Kinner, president of the company, announced yesterday. However, the special meeting of stockholders called for this evening for the purpose of giving an opportunity to convey to officers any suggestions they might have for the expansion of the company.

### Nash Motors Earnings Gain

CHICAGO, April 11. (Exclusive)—Nash Motors Company announced today net income for the first quarter of the fiscal year ended February 28, last, of \$4,118,870 after charges, equivalent to \$1.50 a share on the 2,730,000 no-par common shares outstanding. This compares with \$2,604,378, or 85 cents a share for the same quarter last year.

### International Trust Income Up

NEW YORK, April 11. (Exclusive)—American International Corporation in its report for the first quarter of 1929 issued today showed net income of \$1,000,222 after charges, as compared with \$1,177,448 in the previous quarter, and \$837,164 in the 1928 quarter.

### CRUDE PRICE UP

OIL CITY (Pa.) April 11. (Exclusive)—Still Refining Company yesterday advanced its standard grade of crude oil to 12.5 cents a barrel, to 12.5 cents.

### FRENCH FILM RULE FOUGHT

Largest American Producers Join in Agreement to Close Paris Offices Temporarily, if Necessary

BY JOHN F. SINCLAIR

(Copyright, 1929, by North American Newspaper Alliance.)

NEW YORK, April 11.—From the American standpoint the French film situation has not yet been satisfactorily cleared up. In fact the representatives of the largest American motion-picture producing companies have joined in a decision to discontinue their activities in France and close their Paris offices temporarily, if necessary, unless the French government modifies its restrictions.

### Cool Weather Retards Trade in Local Field

Spring business in the Los Angeles territory has been held in check because of the cool weather and retailers state that there is little demand for other than staple merchandise, according to the weekly summary of the Bradstreet Company, issued yesterday.

### Earnings Hold Up on Tobacco

WINSTON-SALEM (N. C.) April 11. (Exclusive)—Despite the drop in cigarette prices to 86 a thousand which prevailed throughout the first quarter of the year, compared with \$6.40 in the same quarter of 1928, the R. J. Reynolds Tobacco Company for the first three months was well in excess of that of the same period a year ago, Bowman Gray, president declared today. Having just returned from abroad, Mr. Gray expressed satisfaction over the continued expansion of the cigarette business over the Old World generally and in this country. Important brands of the company have shown sharp gains in sales for the quarter and the outlook for 1929 is exceptionally bright, he stated.

### REPUBLIC BRASS REPORTS EARNINGS

NEW YORK, April 11. (Exclusive)—Republic Brass Corporation announced today a consolidated net income for the six months closed December 31, last, of \$2,000,107, after charges, including taxes. The figures include the operations of predecessor companies for and on behalf of the Republic Brass Corporation.

### STOCK MARKET TONE BRIGHTER

General Price Drift Higher as Money Eases

Series of Bullish Earnings Reports Also Aid

Trading Volume Continues to Show Curtailment

NEW YORK, April 11. (AP)—The stock market made the most substantial headway today since the upturn a week ago, as an assortment of pleasing earnings statements and expectation of a steady reduction in brokers' loans sent shorts to cover and promoted ambitious operations for the advance throughout the most of the day's trading. Money held at 9 per cent all day, however, as the outside supply at 4 was quickly exhausted. If the market proceeds at the reduced pace of the past ten days, moderate improvement in the credit situation is expected, as commercial demands are rapidly reaching their peak and will begin to slacken shortly.

### BROKERS SURPRISED

A drop of \$135,000,000 in brokers' loans, announced by the Federal Reserve Bank after the close, equalled the most optimistic day's expectations, although Wall Street generally had looked for a reduction of at least \$100,000,000, in view of the falling off of new financing and the taking up of margin accounts during the sagging market of the past week. Fears over the reduction in the rate had been quieted by the announcement of the Federal Reserve Board that it was satisfied for the time being with its present policy of controlling.

### LOANS STILL HIGH

The reduction in brokers' loans brought the total down to \$5,427,000,000, a drop of \$386,000,000 from the high of \$5,813,000,000 reached March 30, but more than \$1,400,000,000 above the level of a year ago, when loans were at their lowest. The reduction in the rate had been quieted by the announcement of the Federal Reserve Board that it was satisfied for the time being with its present policy of controlling.

### YIELD: Bonds carry a 6% coupon and are liberally priced to yield 5.50%, exempt from all Federal Income Tax and California Personal Property Tax.

Net Earnings on  
United Aircraft  
Stock Reported

NEW YORK, April 11. (Exclusive)—United Aircraft and Transport Corporation, successor of Boeing Airplane and Transport Corporation, announced today a consolidated net income for the year closed December 31, last, of \$4,641,435 after all charges including income taxes, which is equivalent to \$2.52 a share on the 1,557,226 shares of common stock outstanding after allowing for preferred dividends.

The operating revenue and sales of the organization reached a total of \$17,800,056. Operating income amounted to \$5,310,837, and other income, \$151,605, making a total gross income of \$5,462,442. From this were deductions of \$130,706, minority interest of \$37,278 and Federal income taxes estimated at \$652,169.

The consolidated balance sheet as of the close of the year, giving effect to subsequent financing and the acquisition of stocks or net assets of certain of the subsidiaries, showed current assets of \$7,674,404 and current liabilities of \$1,850,585, leaving a net working capital of \$5,823,819.

CONTINENTAL BANK  
TO BOOST CAPITAL

NEW YORK, April 11. (Exclusive)—Continental Bank of New York voted today to increase its authorized capital stock, subject to the approval of its stockholders, from \$1,000,000 to \$2,000,000; to reduce the par value from \$100 to \$10 per share, and to exchange ten new shares for each present share. The bank also proposes to form a securities company.

FORD CUTS LARGE  
AIRPLANE PRICES

DETROIT, April 11. (Exclusive)—Price reductions ranging from \$7000 to \$10,000 on Ford all-metal trimotor transport airplanes, were announced today by Edsel Ford, president of Ford Motor Company.

Trading Light  
on London Mart

LONDON, April 11. (Exclusive)—Trading on the stock exchange was quiet today, with business done on a small scale. The industrial list moved irregularly, with talking machine and radio issues lower. Dunlop and International Nickel advanced, with the latter in demand and the artificial silk group well supported. Tobacco and textiles were dull and the mining list generally was neglected, with Rio Tinto a weak feature, due to the dividend reduction. The oil list had a steady tone, while Marconi issues were lower. Rubbers were quiet and Ford Motors, Ltd., held around 13 15-16.

CHEMICAL CONCERN  
ON BAY CITY BOARD

SAN FRANCISCO, April 11. (Exclusive)—The stock exchange admitted to trading today 100,000 shares of Consolidated Chemical Industries, Inc., Class A participating preference stock, the purpose of the issue being to redeem funded indebtedness, finance construction of new plants and provide additional working capital.

Chemical shortly will own all of the outstanding capital stock of Pacific Bore Coal and Fertilizer Company, Texas Chemical Company and Louisiana Chemical Company, Inc. Class A will be entitled to a preferential cumulative dividend of \$1.50 per share payable quarterly beginning May 1. Net earnings for the year ended December 31, last, were at the annual rate of \$2.86.

OFFERING OF COUNTY  
BONDS ON SALE TODAY

An issue of \$120,000 Los Angeles county acquisition and improvement 6 per cent serial bonds in District No. 149 for the extension of Slauson avenue will be offered today by the Los Angeles Investment Securities Corporation at prices to yield about 5 1-4 per cent. The bonds are being issued to provide for the acquisition and immediate possession of the right of way which will extend Slauson avenue from its present westerly limits at Overhill Drive about 2.6 miles to Jefferson Boulevard, and will give a new outlet from the southwest section of Los Angeles to the west coast beaches.

ESPEE GIVES NOTICE  
OF RIGHTS OFFERING

SAN FRANCISCO, April 11. (Exclusive)—Southern Pacific Company today notified the stock exchange that holders of capital stock of record at the close of business the 8th inst. will be offered, subject to the approval of the Interstate Commerce Commission, the right to subscribe at \$4 and accrued interest from May 1, next, to forty-year 4 1/2 per cent gold bonds of 1929 with warrants to the extent of 17 1/2 per cent of their holdings. These rights, the exchange committee has ruled, may be traded on a when basis.

The Clearinghouse  
News of Spring Street

J. A. H. Kerr, vice-president of the Security-First National Bank and vice-president of the Los Angeles Chamber of Commerce, leaves for Baltimore, Md., this evening to attend the annual convention of the National Foreign Trade Council. As chairman of the credit insurance committee, he will preside over the sessions of that division. As representative of the Chamber of Commerce he will head the delegation of local business men and bankers who will attend the convention.

**Booklet Out**  
A booklet entitled "Stock Transfer Instructions," compiled by the clearinghouse of the Los Angeles Stock Exchange, is ready for distribution to stock transfer departments of brokerage and investment houses.

**Johns Brokerage**  
Walter S. Weeks, active in investment circles of Los Angeles for the past six years, has been appointed sales manager of Howard O. Johns Company, member of the Los Angeles Stock Exchange.

**Yuma Round**  
Directors of the State Mutual Building and Loan Association of Yuma, Ariz., from where they will leave today for a four-day inspection of the leading Arizona cities to become better acquainted with the financial and real estate conditions of the State.

**Addresses Kiwanis Club**  
Benjamin L. Smith, vice-president of the California Trust Company, affiliated with the California Bank, spoke before the Kiwanis Club of Alhambra at their luncheon meeting yesterday. His subject was "The Modern Trust Company."

**Bank Analysis Out**  
Griffith-Wagenseller & Co. has published an analysis on leading banks of New York, which points out that shares of twenty-five representative institutions appreciated more than 4 1/2 per cent in market value from 1918 until 1932, which compares with an increase of 245 per cent for a group of leading industrials.

**Bond Buyers Guided**  
The Dean Witter & Co. quarterly contains some pertinent information as a guide to bond buyers in reaching conclusions as to the trend of security prices, officials of the company stated.

**Clearinghouse Moves**  
The clearinghouse of the Los Angeles Stock Exchange will open new offices on the mezzanine floor of the Stock Exchange Building next Monday.

THREE OIL COMPANIES  
BOOST GASOLINE PRICE

NEW YORK, April 11. (Exclusive)—Three oil companies announced today an advance in the price of gasoline affecting tank wagon and service station prices. Atlantic Refining Company boosted the price 1 cent a gallon to Pennsylvania and Delaware, making the tank wagon 16 cents and the service station 15 cents. Sinclair Consolidated Oil Company met this advance and the Tide Water Oil Company advanced United States motor grade gasoline 1 cent a gallon to 9 cents. The company also met the boost in California bulk gasoline to 9 1-4 cents a gallon.

INDIAN REFINING WILL  
CALL STOCK AND NOTES

NEW YORK, April 11. (Exclusive)—Directors of the Indian Refining Company voted today to redeem 523 shares of preferred stock and \$1,500,000 in bonds. Preferred stock, which is convertible into common in the ratio of five common for one preferred until the date of call, will be redeemed at \$120 a share July 15, next. Funds for retirement were supplied by recent sale of about 250,000 shares of common stock at \$21 a share.

CHAIN STORE PROFITS  
SHOW SHARP ADVANCE

NEW YORK, April 11. (Exclusive)—Tea Company of America today reported consolidated net income of \$24,280,822 for the quarter ended February 28, last, after preferred dividends to \$11.02 a share on 218,411,119, or \$5.22 a share, against \$18,411,119, or \$4.22 a share, in 1934. This represents an increase of 2,028,008 shares in the previous year.

BORG-WARNER NET  
ADVANCES SHARPLY

NEW YORK, April 11. (Exclusive)—Borg-Warner Corporation and constituent companies including those acquired subsequent to December 31, last, reported today a pro forma consolidated net income for 1934 of \$1,165,128 after interest, depreciation, royalties and income taxes, equal after preferred dividends to \$10.22 a share on 595,568 common shares against \$82,135 in 1933, or \$6.42 a share on the same capital set-up.

UNDERWOOD ELLIOTT  
PROFITS INCREASE

NEW YORK, April 11. (Exclusive)—Underwood Elliott Fisher Company today reported for the quarter ended March 31, last, consolidated profits of \$1,923,616, after depreciation and Federal tax, equal to \$2.63 a share on 360,174 common shares against \$1,629,100, or \$2.29 a share on the average number of outstanding shares in the preceding quarter, and against \$1,591,251, or \$1.88 a share on 843,436 shares in the March quarter of 1934.

AMERICAN CHICLE  
EARNINGS ADVANCE

NEW YORK, April 11. (Exclusive)—American Chicle Company reported today net income for the quarter ended March 31, last, of \$468,547, equal after preferred dividends to 92 cents a share on 435,359 shares of common stock, against \$384,725, or \$1.72 a share on 130,853 common shares for the same quarter of 1934, after allowing for 6 per cent cumulative preferred dividends. The prior preferred was retired as of the 1st inst.

The following is summarized from a letter by Mr. F. B. Mathews, President.

**HISTORY:** DOLLAR OIL COMPANY, Inc., has acquired all the assets of the World Petroleum Corporation and the Henderson Drilling and Supply Company. These companies have been in profitable operation for a number of years and have increased earnings in proportion.

**PROPERTIES:** HUNTINGTON BEACH—It has free land and locations for about 25 wells, all proven oil properties. It has five wells producing which are in ideal condition to deepen. At present, other companies are drilling three wells for a deep test. In the event of a lower sand being discovered The Dollar Oil Company is able to take advantage of a sand production by deepening present wells at once. It has negotiated with the Cypress Petroleum Company to take over and deepen No. 7 well on a 60-40 basis. This well is now producing at 4422 feet and is tied to carry to the lower sand which is expected at 5800-6000 feet. Should a deep sand be discovered here, activity will result similar to the Santa Fe Springs and Signal Hill fields.

**SIGNAL HILL:** Signal No. 9 Well has been completed, producing clean oil from a depth of 6167 feet, and having 717 feet of oil bearing formation to draw from. It is making about 300,000 cubic feet of wet gas, containing a gas-oil ratio of 200 cubic feet of gas to one cubic foot of oil. It is also producing 20 gravity oil for which The Dollar Oil Company, Inc., has contracted to receive a bonus of 12c per barrel above the market. This well should increase income from \$20,000 to \$60,000 per year, which, together with their production from Huntington Beach, will amount to approximately \$150,000 per year.

**BELLFLOWER:** Signal No. 11 Well is down 3008 feet with excellent showings of Gas and Oil. Holdings in this field consist of 240 acres, and it is expected that a new field will be discovered here, similar to the Santa Fe and Signal Hill fields, as this territory lies between the two. Should a deep sand be discovered, it is difficult to estimate the value of the properties.

**SANTA FE SPRINGS:** Lease on two parcels of properties, 15 and 5 acres, respectively, in the Southwest portion of said field, about one-half mile from the discovery well of the deep sand. Drilling has been withheld, awaiting further development of the deep sand discovery.

**NORTH MIDWAY FIELD:** Holdings amount to about 12,000 acres. The Dollar Oil Company's two wells are drilling Haberkorn No. 1 Well, down 945 feet, and the Richey and Butler well, down 1194 feet, both on perfect geological structures, and having excellent showings. Phelps No. 1 has been turned over to Andy Lucas and Jack Doyle. It is down to more than 1600 feet, and it is the intention to carry this well to a lower zone, expected around 1000 to 1200 feet, similar to the Republic and C. M. O. Wells to the east of the properties, which are producing from 1000 to 2000 barrels per day at a depth of 2500 to 3000 feet.

**WESTERN DRILLING & PRODUCING CO.,** are operating on 320 acres of The Dollar Oil Company's holdings on a 50-50 basis with no expense to The Dollar Oil Company.

**GEO. F. GETTY, INC.,** are operating on a 50-50 basis on about 1500 acres. They have built a fine road and erected a steel derrick for a deep test and are moving in equipment now. No expense attached to The Dollar Oil Company. After a thorough geological examination, Mr. Dave Wallace, geologist for the Getty Company, selected this acreage on a perfect structure, and it is expected, in addition to encountering the upper zones, that they will pick up the lower Vacaqueros formation, similar to the oil found in the Kettleman Hills at only 4000-5000 feet in depth, against 7000 feet in the Kettleman Hills.

**KENT & McDONALD,** are operating on 320 acres in the center of The Dollar Oil Company acreage, and will start another well at once.

**THOS. PURMAN,** who is operating alongside of Dollar Oil Company's acreage, has picked up 250 feet of oil formation at 876 feet similar to the upper zones of the Republic and C. M. O. wells to the east. They have drilled through this with the expectation of finding the lower Robinson sands around 2500 to 3000 feet. They are drilling now below 2800 feet with heavy gas showings. They are expecting to get a large well there.

Should any of the wells now drilling on The Dollar Oil Company's acreage bring in a big producer, similar to the Republic and C. M. O. wells, it would enhance the valuation of The Dollar Oil Company's holdings in a tremendous way.

All Government permits have operations now being carried on, or proper extensions have been made and are fully protected under the recent rulings of the U. S. Government on Oil Lands, virtually putting them on a preferred basis, as the requirements have been lived up to and large sums of money expended in doing so.

**BUSINESS:** The Dollar Oil Company is strictly a producing and development company, having no Retail Distribution or refining operations. All oil being produced is sold to large companies under favorable contracts. It has its own drilling equipment with an experienced organization, the Henderson Drilling and Supply Company, a subsidiary corporation, to do the drilling, with three rotary and drill rigs to run five strings of tools.

**EARNINGS:** The settled production now obtained from the producing wells approximates \$12,000 monthly, which is more than enough to meet current expenses and present expansion program. Added to the above monthly income is the extraordinary speculative possibilities on its holdings in the Midway, Bellflower, Signal Hill and Huntington Beach fields.

**PURPOSE OF ISSUE:**—The proceeds from the sale of this additional capital stock will provide funds to carry out a more aggressive campaign program.

**MANAGEMENT:**—F. B. MATHEWS, President, prominent oil operator, one of the organizers of the Henderson Petroleum Corporation, with dividends of better than 30 per cent to its credit and 2,000 per cent profit on the original investment over a period of five years—President of the Henderson Drilling Corporation and resident of Los Angeles for the past 36 years. Among the Members of the Board of Directors are prominent business and financial men of the City of Los Angeles.

It is the intention of the Company to make application to list the capital stock on the San Francisco and Los Angeles Stock Exchanges.

This stock is offered when, as and if issued and received by us and subject to approval of counsel.

## New Issue

\$120,000  
LOS ANGELES COUNTY

Acquisition and Improvement District No. 149

6% Serial Bonds  
Series "A"

Dated February 18, 1929 Due February 18, 1934-35, Inc.  
Principal and semi-annual interest, January and July 24 (first coupon July 2, 1930—last coupon at maturity of bonds) payable in gold coin at the office of the County Treasurer, Los Angeles, California.

Non-Callable Tax Exempt in California Denomination \$1000

Exempt from all Federal Income Taxes  
Legal Investment for Savings Banks and Trust Funds in California

Principal and interest on these bonds are payable from unlimited Ad Valorem taxes levied against all taxable lands within the district and collected at the same time and in the same manner as general county taxes.

Los Angeles County Acquisition and Improvement District No. 149, created for the extension of Slauson Avenue, is located about seven miles southwest of the center of the City of Los Angeles in one of the most rapidly developing sections of the County. These bonds are being issued to provide funds for the acquisition and immediate possession of the right-of-way for this road, which will extend Slauson Avenue from its present westerly limits at Overhill Drive about 2.6 miles to Jefferson Boulevard, and will give a new outlet from the Southwest section of Los Angeles to the west coast beaches.

When completed, Slauson Avenue will be one of the longest cross-town thoroughfares in the Los Angeles area. The extension is to be improved with pavement forty feet wide, and will traverse properties owned by the Los Angeles Investment Company and heirs of the Baldwin Estate, a district commonly known as "Baldwin Hills." It will also pass through the golf course of the Fox Hills Country Club. Land in the near vicinity is being subdivided and sold at a rate of approximately \$15,000 an acre. The district is 2.6 miles long and averages 4800 feet wide.

# Dairy, Shipping and Oil Stocks Make Bow Today

New financing to be offered on the Pacific Coast today includes stock issues of shipping, dairy and oil enterprises. Shares of preference stock of the United States Lines, Inc., in the amount of \$600,000, are being tendered by a national-wide banking syndicate, headed by P. W. Chapman & Co., Inc. The shipping company was organized to acquire the United States Lines and its management plans to restore the American merchant marine to its former position in trans-Pacific trade. The price of the stock, which will be entitled to cumulative dividends of \$1 a share a year and which will participate equally with the common in any further dividend distributions, has been fixed at \$17.50 a share and the offering is restricted to American citizens.

A banking group headed by George M. Forman & Co., and Store Leonard & Lynch is offering 125,000 units, consisting of one share of convertible preference stock, no-par value and one-half share of common stock of no-par value, of Foremost Dairy Products, Inc., priced at the market. The dairy concern, headed by J. C. Perry, nationally known chain-store operator, is a consolidation of leading dairy interests in the South.

An additional issue of 100,000 shares of capital stock of Dollar Oil Company, Inc., priced at \$1 a share, is being marketed by a group of Los Angeles stock and bond houses managed by C. W. Glanz. The oil company has acquired all the assets of the World Petroleum Corporation and the Henderson Drilling and Supply Company, and the proceeds from the new issue will be used to carry out a more aggressive expansion program. It is stated. Earnings from settled production are reported at about \$12-20 monthly.

# STOCK MARKET TONE BRIGHTER

(Continued from Thirteenth Page)  
of refiners. Sinclair reported 1929 earnings equal to \$2.70 a share, against \$2.00 in 1927. Utah Copper reported \$15.31 a share, against \$12.70. North American Company reported that electrical output of subsidiaries for the first quarter gained about 14 per cent over the like period of last year. It was said in copper trade circles that red metal prices had been stabilized after recent cuts by custom smelters.

## STEEL RECOVERS

Conspicuous in the upturn in stocks were such leading issues as American Can, American Telephone, General Electric, Consolidated Gas, and United States Steel, which sold up about 2 to 5 points. United States Steel rose above 190 for the first time since the Reserve Board issued its credit warning on February 6, and, independently, were strong. Lendium mounting nearly 6 points, despite the citation by the Interstate Commerce Commission under the Clayton antitrust law. Chesapeake and Ohio made a gain. In the New York traction, Interborough rallied more than 2 points.

## YELLOW TRUCK UP

In the motor, Yellow Truck jumped to a new high at 48 1/2 on heavy buying based on reports that the company had definitely turned the corner after several years of vicissitudes, and would shortly publish an excellent earnings report. Coppers made moderate gains. Anaconda and Kennecott selling up about 3 points. Oils were generally firm with the exception of Houston, which dropped 2 points.

American Radiator mounted more than 11 points, while American Sugar Refining, Childs Company, Columbian Carbon, Commercial Solvents, National Biscuit and General Carburizer were among issues gaining 4 or 5 points. Film issues, after selling off on news of an investigation of an alleged combine on the Pacific Coast, rebounded. Warner Brothers gaining more than 5 points.

Among the few weak spots at the close were Chicago and Eastern Illinois and Oils Elevator, off 3 and 4 points.

Commodities were generally steady. Grains improved slightly, and cotton rallied after easing during much of the session on bullish private March consumption figures, more favorable weather, and relatively easy Liverpool cables. Foreign exchanges were firm on the good showings of the Bank of England's and Bank of France's weekly statements. The sterling demand rate jumped more than 1 cent to just under \$4.85.

## OIL SHARES CONCERN REPORTS EARNINGS

NEW YORK, April 11. (Exclusive) Oil shares, Inc. announced yesterday March quarter net income of \$416,581, equal after preferred dividends to \$1.89 a share on 158,500 shares of common stock outstanding. The previous report for the eighth and two-thirds months ended December 31, last, for which the net income totaled \$406,402, or \$1.87 a share on 117,550 average shares outstanding.

## OLD BANK RATE STANDS

NEW YORK, April 11. (P)—The New York Federal Reserve Bank made no change today in its discount rate of 5 per cent.

# Transcontinental Air

At the time we first advised the purchase of Transcontinental Air, it was selling at \$19. Recently it has sold at \$44.

We have urged the purchase of Transcontinental Air since it is a first-class stock. We believe that present buyers at today's prices will reap a splendid profit.

Principal stockholders in Transcontinental Air Transport, Inc. are said to be the Santa Fe and Pennsylvania Railroads and the Wright and Curtiss Airplane Companies. The company's executive personnel include the illustrious Col. Chas. A. Lindbergh.

It is said that some time between May 1st and May 15th this company will announce, in connection with the Pennsylvania and Santa Fe Railroads, a first-class hour coast-to-coast service between New York, San Francisco and Los Angeles, with 14 flights in time-saving rail by night and 14 flights in time-saving air by day.

This company will not only be given volumes of national publicity which we believe should bring a strong advance in the price of this stock.

## DAILY EASTERN CITRUS MARKETS

(By the Associated Press)  
Circuit shipments of California citrus fruit to the California Fruit Growers' Exchange from railroad packing reports were reported as follows:

SOUTHERN CALIFORNIA		ORDERS		LEMONS	
April 10	228	228	228	228	228
April 11	228	228	228	228	228
April 12	228	228	228	228	228

BY HOWARD C. KEGLEY

The Getty Oil Company, operating in Eddy county, southeastern corner of New Mexico, started the industry to buzzing yesterday by reporting the completion of its Deoley No. 4, ten miles east of Carlsbad, as a 300-barrel producer from a depth of only 1345 feet. The bit in the sand only ten feet. The gravity test is said to be about 22 deg.

This well is significant in that it is forty miles from Artesia, the nearest real oil production, and is the first really big producer that has ever been completed in southeastern New Mexico. Considerable small production has been obtained by many operators, but most of the wells have been from fifty to 200 barrels each.

The Getty organization has three or four small producers on its 16,000-acre block of land near Carlsbad, their individual output being from 200 to 500 barrels a day, but this is their first big well there. As soon as it can be killed it will be shut in because there is storage on the ground for only 3000 barrels.

To Curtail Signal  
Production of oil in the Signal Hill area, now estimated to be 194,000 barrels per day, will be reduced to 140,000 barrels per day, effective from a date forward to be fixed by Umpire F. C. Van Dine, according to a decision of the special committee meeting here yesterday.

A resolution supporting the proposed curtailment was unanimously adopted. It is the direct result of the recent recommendations of the American Petroleum Institute to curtail the production of oil in California to the 1928 level.

Surveying Hole  
The Roberts No. 1 well of the Plymouth Oil Company at Santa Fe Springs was yesterday surveying a hole to ascertain exactly where the bottom is. It is down 7052 feet. This test is the deepest in the southeast section of the field, and is being watched with interest by operators.Seal Beach Producer  
The Associated Oil Company yesterday brought in its Bryant No. 12 well at Seal Beach, making approximately 1650 barrels of oil per day. It is down 5668 feet.Another Producer  
The Shell Oil Company yesterday brought in its Pickler No. 10-A well, at Signal Hill, from a depth of 6500 feet. For the first eighteen hours the well made approximately 468 barrels of oil, which would give it about 700 barrels for twenty-four hours. The Pickler No. 11 was swabbing yesterday, at 6121 feet.Tortoise Operators Meet  
Oil operators of the Tortoise district have expressed themselves as being in sympathy with the recommendations of the American Petroleum Institute to curtail the oil production in California to the 1928 level. They met yesterday at the offices of Umpire F. C. Van Dine. The Tortoise committee of operators consists of W. C. Cowan, Charles Dove and L. Van der Loe.Holes Over Lease  
The Western Drilling and Producing Company has taken over 400 acres held by the Southwestern Oil Company, in the Yorba Linda district, and will continue to drill its Day No. 1 well, now down 3650 feet. The acreage is about one mile north of Richmond. The Day No. 1 well, produced oil testing 22 deg. gravity when 450 feet of oil-bearing sand was penetrated. It is to be deepened.Wildcat Spots In  
The Moore No. 1 wildcat of the General Petroleum Corporation, in Santa Barbara county has spudded in and drilled to 461 feet in search of a southeasterly extension of the Elwood field. This test is two miles southeast of the proven area at Elwood field, and close to the center of the General's Kern County Land Company No. 1 wildcat, three miles south of McFarland, is rigging up to spud in.Best Problem Delayed  
The cement job in the Getty No. 21 well of Getty F. Getty, Inc., at Santa Fe Springs failed to hold when a water shut-off test was made yesterday. It was cemented at 6925 feet with imported cement, which failed to shut out water. Bottom of the hole is at 7038 feet.New Producer  
The Texas Company has just brought in its Standish No. 5 well at Santa Fe Springs, making 3750 barrels of oil a day from the Buckley sand. It is down 5897 feet. The oil tests 34.5 deg. gravity. Gas is in excess of 1,000,000 cubic feet a day. Pressure on the casing is 1,400 pounds, and 325 pounds on the tubing.Production Reduced  
Production from the new Luton-Bell No. 4 well of Barnard-Rio Grande combination at Elwood was yesterday cut to 300 barrels of oil per day. The oil tests 38.2 deg. gravity. Initial production was estimated to be 5000 barrels of oil a day when the well came in two days ago. Gas was said to be 1,500,000 cubic feet a day.

The Elwood Community No. well is standing cemented at 5155 feet.

Ready to Kill Gasser  
All preparations have been made for another attempt to kill the Ochsner No. 2 well of the General Petroleum Corporation at Kettleman Hills. The completion of three traps to care for the oil condensing from the gas, and other arrangements, which included the installation of high-pressure pumps for forcing mud into the hole indicate that the attempt may be made today or tomorrow. About 24,000,000 cubic feet of gas is coming from the well. As soon as the well is killed it will be deepened.Gets Deep Producer  
The Pacific Western Oil Company yesterday brought in its Orton No. 8 well in the Ventura-avenue field with an initial production of 2400 barrels of oil a day. It is down 7051 feet. This well, formerly producing approximately 200 barrels of oil

NORTHERN CALIFORNIA		ORDERS		LEMONS	
April 10	0	0	0	0	0
April 11	0	0	0	0	0
April 12	0	0	0	0	0

California oranges found varying markets at eastern and middle western centers yesterday, with, however, spotted, rather scarce. The market range was lower to higher, with some points reporting steady. Lemons ranged from higher to lower, with a majority of markets reported about steady.

Analysis of trading showed the following price ranges per box:

ORANGES		LEMONS	
Graded above choice	2.00-2.10	Graded above choice	2.00-2.10
Choice	2.10-2.20	Choice	2.10-2.20
Below choice	2.20-2.30	Below choice	2.20-2.30

Peaches at size of Summit brand brand oranges were reported to the California Fruit Growers' Exchange, as follows:

## NEW YORK CURB STOCKS

NEW YORK, April 11. (AP)—Prospects of a sharp easing of credit conditions, and a consequent rise in the price of money, are the main factors in the advance in today's curb market. The market was generally higher, with a few exceptions, and a few points reporting steady. The market range was lower to higher, with some points reporting steady. Lemons ranged from higher to lower, with a majority of markets reported about steady.

Analysis of trading showed the following price ranges per box:

ORANGES		LEMONS	
Graded above choice	2.00-2.10	Graded above choice	2.00-2.10
Choice	2.10-2.20	Choice	2.10-2.20
Below choice	2.20-2.30	Below choice	2.20-2.30

Peaches at size of Summit brand brand oranges were reported to the California Fruit Growers' Exchange, as follows:

## RIVER MYSTERY QUEST IN VAIN

Deputies Baffled as Torso Case Clew Fails

Ms. Clarke Located and Explains Absence

Another Quizzed by Officers on Attack Story

Deputy sheriffs last night admitted they are baffled in their efforts to ascertain the identity of the woman whose torso was recovered from the Los Angeles River bed a week ago last Thursday, their best clue having proved worthless.

After three days of intensive investigation, Mrs. Laura Belle Clarke, believed to have been the dead woman, was located yesterday at 917 Venice Boulevard.

Quizzed by Capt. William Bright, in charge of the murder investigation, Mrs. Clarke declared that she had left the home of Mrs. Holman, 627 West Eighth-third street, several weeks ago, because of financial difficulties and had not returned on that account to claim some personal effects she had left there.

**DISAPPEARANCE REPORTED**  
Mrs. Holman and a dealer who had sold Mrs. Clarke a radio reported the disappearance of the radio to the sheriff's office, and the case took on added significance when it was discovered that Mrs. Clarke's description fitted that of the dead woman, and that she had left Mrs. Holman's residence in company with Robert Bernard, many times arrested on different charges.

Mrs. Clarke told the sheriff's men yesterday, however, that she had seen Bernard as recently as last Tuesday night and that she does not believe that he was in any way connected with the woman's death.

While Mrs. Clarke was telling her story, Grace Slingerland of 522 South Main street was taken to Capt. Bright's office by Capt. Slaton of the Seventy-seventh-street police. She declared that picture of Bernard closely resembled a man who had attempted to attack her in her apartment last Tuesday night.

**OFFICERS DOUBTFUL**  
After questioning her for some time, however, the officers were inclined to believe it a case of mistaken identity. They declared, however, that further identification will be attempted.

The Slingerland woman declared that the man in question appeared in her apartment about 11 p.m., and her hands and feet with neckties, and with the declaration that he was "going to pick me up," she threw her over his shoulder. She said he dropped her when he heard another man whistle outside.

Despite the failure of all clues up to date, Capt. Bright declared last night that the investigation will be pushed with unabated vigor, and that he is confident of a solution of the mystery.

## MISSING WOMAN FINALLY FOUND

Laura Belle Clarke

## Charity-Dance Solicitor Taken Before Court

Harry Walter, asserted to have been a solicitor for Carl J. Gardner, accused of directing a scheme in Los Angeles for obtaining funds for war service organizations, was arraigned before Municipal Judge Ambrose yesterday afternoon on a charge of conspiracy to commit petty theft.

His preliminary hearing was fixed for the 14th inst. when Gardner and six other defendants will be given a hearing on similar charges. Walter was released under \$1500 bond.

At the same time Hugh McInnes, deputy district attorney in charge of the investigation, announced that all war-service organizations in Southern California, including the American Legion, have been asked to aid in a search for A. E. and T. R. Mitchell, asserted to be heads of a Pacific Coast charity-bait syndicate with headquarters in San Francisco. It is charged that Gardner was the Los Angeles representative of this organization.

## FOX FILMS GET PERMIT FOR RADIO

Short-Wave Station Will Be Used by Production Companies on Location

A permit for a radio station that can be carried into all parts of the world to establish communication with picture companies on location was granted by the Federal Radio Commission recently to the Fox Film Company. The apparatus will consist of a short wave receiving and transmitting set that can be used by the home company for instructions and the location parties for reports on the progress of pictures.

It is pointed out by Fox officials that this means of communication is much cheaper and more satisfactory than cable. Many times producing companies are sent into areas where there are no ready means of communication, it is explained. Metro-Goldwyn-Mayer and Warner Brothers have used the radio for this purpose.

## Country Looks Rich to Visitor Long Abroad

To one who has been absent for five years, Los Angeles and the United States in general has the appearance of great prosperity, said Carl A. Fisher, secretary of the United States Legation at Belgrade, Jugoslavia, in Los Angeles, on a short leave of absence.

Mr. Fisher, who is here to visit his mother, Mrs. Albert Fisher of 854 South Detroit street, and brother, Albert Fisher, attorney, arrived in New York about two weeks ago and before coming here visited a brother and sister in Salt Lake City.

He has been in the diplomatic service five years, serving on the legation in Berlin before going to Belgrade. He attended Stanford University and during the World War was a pilot in the navy aviation service. Following the war he studied at Georgetown University in preparation for foreign diplomatic service. He expects to return to his post in about six weeks, he said.

**MICHIGAN REUNION SUNDAY**  
The annual picnic and reunion of the Michigan people will be held Sunday all day at Blythe Grove Park, when a program including a concert by the Huntington Park forty-piece band will be heard. Mrs. Edith Simonson, secretary, says 25,000 former Michigan people are expected. Detroit, Grand Rapids and other large cities as well as counties will have special sections.

He said somebody must have stolen him in his sleep and then robbed him, but he could not remember any assault. He was sent to the Central Hospital on the possibility that his skull was fractured.

## LEADERS IN FILM DEAL PLAN EARLY TRIP EAST

That negotiations for the \$500,000 amalgamation of all of the United Artists holdings into one corporation and a later merger with Warner Brothers are about to be completed was seen yesterday when owner members of the group made preparations to go to New York. Charley Chaplin will not be a member of the party, it was announced at the Chaplin studio.

The party to go east to negotiate for the financing of the deal through Blair & Co. is believed, however, to be headed by Joseph Schenck, president and chairman of the board of directors of United Artists, Mary Pickford, Douglas Fairbanks, Samuel Goldwyn, Gloria Swanson and D. W. Griffith. They are expected to leave Sunday afternoon, or soon thereafter.

Whether or not Miss Swanson will make the trip was not ascertained definitely yesterday. She at present is making a picture and may be represented in the deal by Joseph P. Kennedy, eastern capitalist, or by her attorney, Griffith now in Texas, but it is said he will go to New York for the conference.

Schenck yesterday admitted that such a trip is contemplated, but the only statement he would make is that he is "going east on business." At the Chaplin studio it was not interested in the amalgamation or merger deals and will remain in Hollywood to work on his current picture. The statement indicates that Chaplin intends to hold to his previously announced plan not to be a party to the deal and to decide his future as soon as the other members of United Artists make their decision. This probably will mean that Chaplin will withdraw from the group and sell his product on the open market. He always has opposed any merger deals involving United Artists.

The party will be accompanied east by Dennis O'Brien, attorney for the United Artists; Bert May, fact, Schenck's personal attorney, and possibly Nicholas Schenck, brother of Joseph, who is president of Metro-Goldwyn-Mayer.

**SECOND RECESS LIKELY IN TRIAL**  
(Continued from First Page)  
another had attempted to make outside contact with a former witness at the trial, he declared he believed himself in danger because of his statements and was permitted to carry a gun.

When the trial is resumed again, former Detective Lieutenant Locas, one of the eight defendants on trial, will return to the witness stand to testify in his own defense. He was on the stand when court adjourned Wednesday.

Two other defendants, former Police Investigator Raymond and Mrs. Callie Grimes, will proceed with their respective defenses after Locas. Raymond is due to go on the witness stand, while counsel for Mrs. Grimes is doubtful that she will testify.

The defense of Captain of Detectives William is completed. The remaining four defendants, Captain of Detectives Williams, Detective Cos, Albert Mason and Charles Crawford, rested their cases without offering testimony.

Unless hampered by further delay, the defense cases are expected to be closed late Monday or early Tuesday and the jury given final instructions.

**Burglary Victim Finds Head Split**  
Thomas Kahler, 47 years of age, of 2222 West Fifteenth street, yesterday awakened in his own bed to find that his scalp was split and that a \$300 diamond ring and \$200 worth of clothes were stolen. At the Georgia-street Receiving Hospital, where he was taken for treatment, he asserted that it was all a mystery to him, because he had gone to bed intact Wednesday night.

He said somebody must have slipped him in his sleep and then robbed him, but he could not remember any assault. He was sent to the Central Hospital on the possibility that his skull was fractured.

**Hungry Persons Get Invitation**  
Persons with hearty appetites were invited yesterday to register for several "eating contests" to be conducted in the Ambassador Auditorium during the fifth annual Food and Household Show, the 22nd to the 27th inst.

Headquarters for registering will be opened this morning at the food show offices in the auditorium, with W. H. Cline and E. C. Porter in charge. Coffee drinking, and spaghetti, doughnut, cake, pie and bread eating tournaments are programmed. A girl's sweeping contest and a beauty contest for housewives also are planned.

**Opening of Bids for Bonds Set**  
Bids will be opened by the City Council on the 23rd inst. for the four bond issues, totalling \$2,400,000, whose sale the Council authorized on Wednesday.

The issues, which are being offered for the third time, include \$500,000 of bridge and viaduct bonds, \$500,000 of water works bonds, \$500,000 of electric plant bonds, and \$500,000 of bonds voted in 1922 to cover the cost of preliminary work in connection with Colorado River aqueduct project.

**Puzzle Working Wife Divorced**  
Michael Eugene Malloy did not object to his wife working crossword puzzles, but when she engaged in the pastime with another man in a hotel room it was going a bit too far, he declared yesterday before Superior Judge Westover, when asking for a divorce from Beattie Malloy.

Malloy accused his wife of infidelity. He named Frank Skinner. The husband was granted a divorce. Berkeley, July 2 and 3.

## ZANE GREY DUE AT BAY CITY

Zane Grey, novelist, is due to arrive in San Francisco today after completing a nine-months' expedition in the South Seas. This information was received yesterday from Mrs. Grey, who left her Alameda home yesterday to meet her husband at the Bay City.

Grey is coming from New Zealand on the steamer Tahiti. He will come immediately to Hollywood to witness production of one of his latest novels at the Paramount studios.

Grey left San Pedro last July for New Zealand in company with Homer Grey, the author's brother, and Mitchell, an authority on deep-sea fishing, and Bob Garney, a friend of Homer Grey.

## HONKYTONKS TO BE REGULATED

Ordinance Approved by Fire Commission

Curb Against Theaters Will be Broadened

Any Amusement Charging Admission Affected

The draft of an ordinance providing that the same safeguards shall be required in all places of public entertainment where an entrance fee is charged as apply to theaters was approved by the Board of Fire Commissioners yesterday and presented to the City Council for passage on recommendation of Fire Chief Scott.

The new measure, similar to one turned down by the City Council several months ago, but with the features objectionable to the building and safety department removed, is aimed to compel Main-street "honkytonks" to comply with the proposed fire regulations, or go out of business.

Under the proposed ordinance, which sets forth the various safeguards required in regulation show houses, the terms theater is required to mean a room, hall or auditorium with or without a stage, with or without scenery and designed for public entertainment of persons adapted for presentation of plays, operas, shows, moving-picture facilities and similar places of entertainment, whether temporary or permanent and where a fee is charged or collected.

The term theater, it is proposed, also shall include museums, menageries or art exhibits, with live, painted or wax models on exhibition.

The building and safety department had opposed the former ordinance because it included construction methods for places of public entertainment, which the department felt was within its province and not that of the fire department.

The new measure leaves out any provision for construction methods but is aimed to regulate by enforcement of the safety precautions as demanded of regulation theaters.

## DEAL OFFERED FOR COLISEUM

(Continued from First Page)

for a period of seven years after the work has been started. During that period the association will receive a total of \$1,082,256 in rent from the city and county, each to pay half.

It further provides payment by the city and county, in addition to the rent, a sum equal to the taxes received by the city and county on the structure during the year.

**CITY AND COUNTY USE**  
Under the agreement of the city, by giving two months' advance notice, may have exclusive use of the Coliseum for fifteen consecutive days in the months of February, April, June, August, October and December. By giving similar notice, the county can have exclusive use for fifteen consecutive days in the months of January, March, May, July, September and November. There is a proviso, however, that the Sixth District Agricultural Association has a prior right to the use of the Coliseum for fifteen days each year for the purpose of holding a fair or exhibition.

The association agrees to maintain and keep up the buildings and grounds, and its revenues must be used first for this purpose. At the end of the ten-year period any surplus funds are to be divided equally between the city and county.

When, under the agreement, the association surrenders the Coliseum to the city and county, the tenure of these two governments will last until February 23, 1960.

## LYNWOOD POLL INQUIRY BEGUN

(Continued from First Page)  
the polls had closed to slip a group of voters favorable to certain candidates through a side door into the polling place.

**SEVERAL INVOLVED**  
The name of the citizen making the complaint was withheld by Frampton pending the investigation Tuesday, which may result in a complaint being filed against several prominent Lynwood citizens.

According to Frampton, only the vigilance of a police officer assigned to guard the polls prevented a group of voters from being smuggled into the polling place after closing time. A member of the election board, he said, had invited the group to "come in out of the rain" through a side door, but the officer foiled the plan by locking the door and pocketing the key.

Earlier in the day the official polling list was found missing from the polling place on several occasions and located in the office of a school executive near by a few minutes later, it is charged. It was seized by an officer and returned, only to turn up in the same office again a few minutes later.

Dep. Dist. Atty. Frampton announced last night that he intends to question everyone concerned in the asserted irregular activity in an effort to determine whether or not a felony has been committed.

## THE LANCER

(Continued from First Page)

the government is being hard put to it because at some of the border stations men occasionally meet customs men who are almost human.

There is no very clear reason why the same standards of courtesy and pleasant manners should not obtain in these departments as in the forestry and national park service.

**HEARING POSTPONED**  
Hearing of appeals against the confirmation of the assessments for the improvement of Hubbard avenue between Mulholland street and Fourth street was postponed yesterday by the City Council to the 22nd inst.

## VALLEY BUYING SURVEY STARTS

City Gets Busy on Plans to Purchase Five Towns

First Move Will be to Fix Values of Property

Unofficial Owens Report Sets \$2,000,000 Price

A survey by the Los Angeles Water Bureau to determine the value of the Owens Valley towns, which may be purchased by the city, was begun yesterday.

This was announced following a meeting Wednesday night between the committee of ten, representing the towns of Bishop, Big Pine, Independence, Laws and Lone Pine, and the Los Angeles water bureau committee, headed by H. A. Van Norman, A. J. Porter and E. J. Porter of the water bureau and a division of the department of water.

The survey is expected to take place this week and is designed to fix a fair equitable appraisal of the value of the five towns. A suggestion that the price be reckoned on the basis of the tax assessment of the towns has been rejected by the committee. The purchase price is expected to be fixed at 41 times the assessed value, which would be \$2,000,000 for the five towns.

According to news dispatches, the value of the survey will be paid by the city. The value of the towns is expected to be \$2,000,000.

**Dentist Beat Her, Wife Says**  
Mrs. Alice Leach was wheeled into court of Superior Judge Yankel yesterday to prosecute her husband, Dr. Leach, for molesting her.

The wife testified her husband recently became intoxicated and beat her and their children. She said she was confined to the wheel chair as a result of a beating her husband had given her.

"One night he twisted my arm and threatened to kill me," Mrs. Leach said.

"He was when he was so drunk," she said.

**PHILIPINS AGAIN PICK CITY FOR CONVENTION**  
Again Los Angeles will be the site of the annual national convention of the Filipino Federation of America, according to announcement made by President Montano. The date of the third annual assembly will be from December 1 to January 1, inclusive. The convention was made in cooperation with preparations for the state election, July 1 to 7, inclusive, to be held jointly by Stockton and Modesto.

## Suddenly, out of a spring sky...

ALL was well on the telephone front on April 27, 1928. Suddenly, out of a spring sky, rain began to fall, and as night came on this turned into a furious storm of sleet, snow and wind. In 48 hours, 3700 telephone poles and 7000 miles of wire were down, 39 exchanges were isolated, 11,000 telephones were silent.

Repair crews were instantly mobilized and sent to the scene. In record time, 1000 men from five states were on the job. Within 72 hours the isolated exchanges were connected and the 11,000 telephones were back in service.

In any crisis there are no state lines in the Bell System. In all emergencies of flood or storm as well as in the daily tasks of extending and maintaining the nation-wide network, is seen the wisdom of One Policy, One System, Universal Service.

## Save Time!.... How? Red Rock Salad

Dinner in half an hour! What can one prepare in half an hour?

Simple! Even the plainest of dinners can be made festive with this Red Rock Cottage Cheese salad! It looks complicated, but it took just ten minutes to prepare, and the family will enjoy it as much as if you spent hours planning it! This is just one of the suggestions that you can develop from delicious Red Rock and win compliments for your creative art. So rich and creamy and full of health-giving food value. Red Rock is made fresh daily. There's all the difference in the world between Red Rock and the old-fashioned cottage cheese you may have known about. You can be sure of that!

**RED ROCK COTTAGE CHEESE**  
It's richer, creamier, better!

## SOCIETY

BY JUANA NEAL LEVY

Announcing her engagement to Frank Edwin Davis, a charmingly appointed luncheon was given Saturday by Miss Dorothy Catlin in the pastel shades adorning the table. The guests included Mrs. Walter M. Catlin, Mrs. C. F. A. East, Mrs. Charles Loney, Mrs. Kenneth Wallace Verling, Mrs. Graydon Oliver, Mrs. Harold J. Clark, Mrs. James Fleming, Mrs. Benjamin Winslow, Mrs. Stanley Matson, Mrs. Russell Robinson, Mrs. Homer Mitchell, Mrs. Herbert Cameron, Mrs. Wallace McGee, Mrs. Charles Gabriel, Mrs. George Andrews, Mrs. Corinne McConnell, Mrs. Archer Norcross, Mrs. Mathew Scott, Mrs. Isabella C. Mahan.

Miss Grace Madden, Miss Nellie Ross, Miss Eva Haight, Miss Lena Mork and Miss Margaret Parcell. Miss Catlin is the daughter of Mr. and Mrs. Walter Catlin. She was graduated from University of California at Berkeley and is a member of Chi Omega Sorority, while Mr. Davis also claims University of California as his alma mater and is affiliated with Alpha Chi Sigma professional fraternity. No date is set as yet for the wedding.

**Dedication Ceremonies**  
One thousand invitations have been sent for the dedication of Dixie Manor, the home for disabled Confederate veterans at 818 Clarence avenue, San Gabriel. The ceremonies will take place Sunday afternoon, with Bugler Creasy Band Murray sounding the assembly call promptly at 2 o'clock. Rev. Josiah Bailey, D.D., will officiate and Gen. S. A. Simmons and John Steven McGroarty will be the speakers of the day. Pouring tea will be Mrs. Thomas Jefferson Douglas, Mrs. William S. Barlett, Mrs. William Henry Anderson, Mrs. Chappel Q.

Stanton, Mrs. Hancock Banning, Mrs. Willard Andrews, Mrs. Charles Y. Knight, Mrs. S. R. Thorpe and Mrs. Nathaniel Dryden. Hostesses of the afternoon will be Mrs. Milton Leroy Bannock, president of the California Division, Daughters of the Confederacy, and the home committee including Mrs. William J. Chickens, Mrs. James A. Talbot, Mrs. Homer Whitley, Mrs. Albert Sidney Johnson, Mrs. Collier W. Willey, Mrs. Hughes Carr, Mrs. May Harris, Mrs. William W. Wright, Mrs. Herbert Schick, Mrs. F. B. Nellums, Miss Susie Ponder, and Mrs. Ella Swickard, assisted by the chapter president, U.D.C., Mrs. Ada Brand Stocker, Mrs. Helena T. Roche, Mrs. J. William Barnes, Mrs. Frank W. Galvin, Mrs. J. Burton Cook, Mrs. Clifford Wright, Mrs. E. C. Bull, Mrs. Patrick Henry, Mrs. O. P. Hanna, Mrs. William B. Fleet and Mrs. E. Lovett. Assisting at the tea tables and in the serving will be a bevy of young "Daughters" including Miss Jean Hammond, Mrs. Frances Weaver Roberts, Miss Polly Ann Darling, Miss Margaret Waltherhouse, Miss Virginia Andrews, Miss Nell Tyler Barnes, Miss Leslie Andrews, Miss Dorothy Douglas, Miss Mary Elizabeth Westpheling, Miss Virginia Harris and Miss Mary Helen Whitlock.

**Several Affairs**  
Jean Groves French marionettes are to appear at the Pasadena High School, East Colorado street, tomorrow under the auspices of Miss Ada Margaret Brayton and the Plintridge country school by arrangement with L. E. Behymer. There will be two performances, "The Little Land of Oz" in the afternoon at 2:30 o'clock and "The Blue Bird" by Maurice Maeterlinck, in the evening at 8:15 o'clock. Tickets may be had at the Brown book store, 190 East Colorado street, Pasadena. There is a special discount made to parties of ten or more.

**Patronesses for the event** are Mrs. Lee Milbank, Mrs. Louis Lee Arms, Mrs. Douglas Mitchell, Mrs. Standish Mitchell, Mrs. Elwood Riggs, Mrs. Frank R. Strong, Mrs. Henry Rivers, Mrs. Clarence E. Bradburn, Mrs. E. B. Yeakum, Mrs. Stuart Salisbury and Mrs. Grover T. Garland. Among the parties that have been arranged are a group of twenty Camp Fire Girls from Glendale, a group from La Crescenta and a group from La Cañada. Subscribers who are entertaining parties are Mrs. R. L. Heath, Mrs. E. B. Yeakum, Mrs. Elwood Riggs, Mrs. Lee Milbank, Mrs. E. E. Joyner and Miss Mary Joyner of San Marino; Mrs. Lee W. Blase, Mrs. John J. Troy of Altadena; Miss Mabel Parsons of South Pasadena; Mrs. Howard Isham, Dr. Marie Grunwald Fitch entertaining a

party of ten for Barbara and Stewart, Jr. Other subscribers are Mrs. James Brehm, Mrs. A. B. Rudock, Mrs. William Stewart Young, Mrs. Edith English, Mrs. Joseph Reed, Mrs. O. T. Hills, Mrs. Frederick C. Marsh, Mrs. Franklin Thomas, Mrs. A. J. Wingard, Mrs. George G. Reis, Mrs. Ernest A. Hatchelder, Mrs. James E. Harvey, Harry Fitzgerald, H. I. Stuart and Dr. John Willis Daser.

Several subscribers are taking tickets to be given the Boys and Girls Aid Society, Children's Training Society and other children organizations unable to enjoy the nation's estate, and many business and professional club women are making up parties. Subscribers include Miss Harriet Sterling, president of B. and P. W. Club; Miss Alice Beach, Miss Rankine, Miss Hanna and Irma Ashland, Mrs. Adella Abbott, Miss Verna Bowman, Miss Lillian Collins, Miss Edna Smith, Miss Louise Dast, Mrs. Clara Locke, Miss Alice Smith, Miss Elizabeth MacCormack, Miss Christine Lofstedt, Mrs. Lavinia Wells, Mrs. Helen B. Ford, Mrs. Doris Atkinson, Miss Alice Pearson, Mrs. Margaret Cane, Mrs. Clara L. Carlisle, Miss Constance Dexter, Miss Eleanor Hunter, Dr. Lillian Painter, Dr. Kathleen White, Miss Lillian Johnson, Mrs. Minna E. Madden, Dr. Julia E. Richardson and Dr. Flora May Richardson.

**Honoring Recent Bride**  
In honor of Mrs. Donald Layton Greenwood (Evelyn Kingston) a bride of recent date who has come back from her wedding trip, Miss Geraldine P. Hays of Beverly Hills entertained Thursday afternoon, the 4th inst., with a luncheon and bridge at the Beverly Wilshire. Forty flowers in a row of color centering the table while unique place cards marked the covers for Miss Birks, Mrs. Greenwood, Mrs. Lillian Hays, Mrs. Wallace Molt, Mrs. Charnley Atwater, Mrs. Robert H. Edwards, Jr., Mrs. Alexander Scott, Mrs. John Zeiser, Mrs. Shelby Howell, Mrs. Ruth Cameron Hildale, Mrs. James McRoberts, Mrs. Richard Powell, Mrs. Lee Bering, Mrs. Frances Keach, Mrs. Helen Chandler, Miss Frances Crandall, Miss Geraldine Heron, Miss Charlotte Edwards, Miss Ruth Richardson, Miss Harriet Quinan and Miss Marian Gaffney.

**Shakespeare Fortnight**  
Many dinner parties will center about the seventh of the Fortnightly series with Shakespeare, next Tuesday evening when R. D. MacLean (R. D. Shepherd) and Thomas D. Patten will present Richard III in the Music Room of the Baltimore at 8:30 o'clock. Mr. MacLean will be assisted by Mrs. Guy Bates Post as Lady Ann in the castle while Fergus Reddie, Peter Richmond and Raymond Q. de Burgos will round out the perfect cast.

## POPULAR IN COLLEGE CIRCLES

### Bride-to-Be Arranges for Sorority Fete

Miss Rosita Hoppa

ONE of the charming members of the younger set who is popular in collegiate circles is Rosita Hoppa, daughter of Mr. and Mrs. W. W. Hoppa of New Mexico and Los Angeles. Miss Hoppa is president of Torch and Tassel, highest honorary women's society at the University of Southern California, and is a member of the Amazon and Alpha Chi Omega Sorority. Her engagement to Darrell Nordwall, son of Mrs. Fred Parker of Los Angeles, was announced recently. Mr. Nordwall also is a University of Southern California graduate and is president of the Bachelors Royale. Annunciation and luncheon of the Torch and Tassel, the national honorary alumnae chapter of Torch and Tassel, is to be held tomorrow at the Students Union Building. Miss Hoppa has sent out 125 notices for this affair. The initiation will be held at 10 a.m. before the luncheon. The alumnae are interested in vocational work for college women, and this will be taken up by the incoming alumnae group.

## With Your Eye on Hills Bros' Arab

Look for the Arab—it's very important. It stands for the only coffee roasted a few pounds at a time by a continuous process—Hills Bros. Coffee.

One cup of Hills Bros. Coffee will prove to you how important this roasting process is. That rich, uniform flavor is the result of perfect control. Every berry is roasted evenly. No other process could ever roast coffee

so exactly and develop such aroma and smooth strength.

Hills Bros. Coffee is packed in vacuum tins. All the appetizing aroma and flavor is sealed in for you to enjoy. You realize

this the instant you open the can. Ask for Hills Bros. Coffee by name and look for the Arab on the can. Hills Bros. Coffee is sold everywhere and preferred by coffee-lovers everywhere.

The Arab is the trademark that identifies Hills Bros Coffee, roasted a few pounds at a time by a continuous process

## HILLS BROS COFFEE

## YOUR MINUTE

Mr. Hoppa and his wife, Mrs. Hoppa, are the parents of Miss Rosita Hoppa, who is engaged to Darrell Nordwall. The wedding will be held at a later date.

## EXERCISES FOR THE DAY

## CHEF WYMAN'S RECIPES

**SPANISH MEAT PIE**

Line a pudding dish with a thin layer of rich pie crust, cut into thin flakes two cupfuls of cooked chicken, lamb or veal and place a layer of the meat on the pastry...

**ASTOR SALAD**

Mix in a cold bowl one and one-half cupfuls of diced cooked chicken, two-thirds of a cup of diced celery, two-thirds of a cup of peeled and diced cucumbers, two chopped hard-boiled eggs, one chopped green pepper, twelve chopped ripe olives, a seasoning of salt, and pour over the meat mixture. Cover with pastry, pinch the edges together and bake in a moderate oven.

**COCAINUT CREAM PIE**

Mix one cupful of sugar with five level tablespoonfuls of sifted flour, one-third of a teaspoonful of salt, place in a double boiler, add two and one-half cupfuls of milk and stir and cook until thick and smooth. Add three well-beaten egg yolks a little at a time and half a cupful of shredded coconut, allow to simmer for one minute, remove from the fire, add two spoonfuls of lemon extract, cool, pour in a baked pie shell, cover with a coconut meringue and brown in a slow oven.

**COCAINUT MERINGUE**

Beat the whites of three eggs to a stiff froth and beat into them gradually four and one-half tablespoonfuls of sugar, and beat until they will stand alone. Then add three more tablespoonfuls of sugar, and beat again until stiff; fold in

## Cooking Class Reopens Soon

It is reported that Mrs. Mabelle (Chef) Wyman is recovering rapidly from accidental burns received last week and she will be able to resume her free cooking classes next Tuesday.

There will be no cooking classes today.

In the United States there are 3,000,000 miles of improved highways.

**FRUIT CUSTARD**

Peel, core and bake until soft four tart apples, press through a sieve, and while hot stir in three tablespoonfuls of butter, beat the yolks of two eggs until light, beat into them two tablespoonfuls of hot sugar syrup, and half a cupful of cream, beat for five minutes, add the apple pulp, combine well, pour into buttered custard cups, set in a pan of hot water and bake fifteen minutes in a medium oven. Make a meringue of the egg whites, cover the tops of the baked custard, return to the oven and brown.

**Washable Walls**

If your kitchen and bathroom walls are papered, make sure they are covered with a washable glazed paper. It is almost as effective as real tile, can be washed and is very durable.

Late to breakfast? When it's "lunch and go" - to school or office - try this delicious breakfast fruit juice, ready instantly!

### Only BEN-HUR Drip COFFEE

is Especially SELECTED, BLENDED and CUT for use IN THE BEN-HUR Healthful COFFEE-MAKER

DON'T fool yourself into disappointment by having your grocer re-grind other brands of coffee for use in the Ben-Hur Healthful Coffee-Maker.

The new BEN-HUR Drip Coffee is not merely a regular coffee ground fine...

Every variety of coffee used in this wonderful blend has been selected not only for delicious flavor, but also for quick-releasing characteristics, and is so blended, roasted and steel cut that by pouring the boiling water through the coffee just once, every particle of flavor will be drawn out of it.

There is no other coffee like it... anywhere.

Remember There is only ONE coffee especially adapted to the filtration method of making.

### Early Copy--

THE closing hour for Real Estate and kindred want ads in the Sunday Times has been advanced to noon on Saturday. This is rendered necessary by incorporating this class of want ads in the Sunday Times' new and enlarged real estate section, thus consolidating all forms of real estate information—news as well as advertising—into one convenient section. Included in this section are all classes of Real Estate, Oil and Mining Property, Hotel and Apartment-house Leases, Business Opportunities, Money to Loan and Money Wanted.

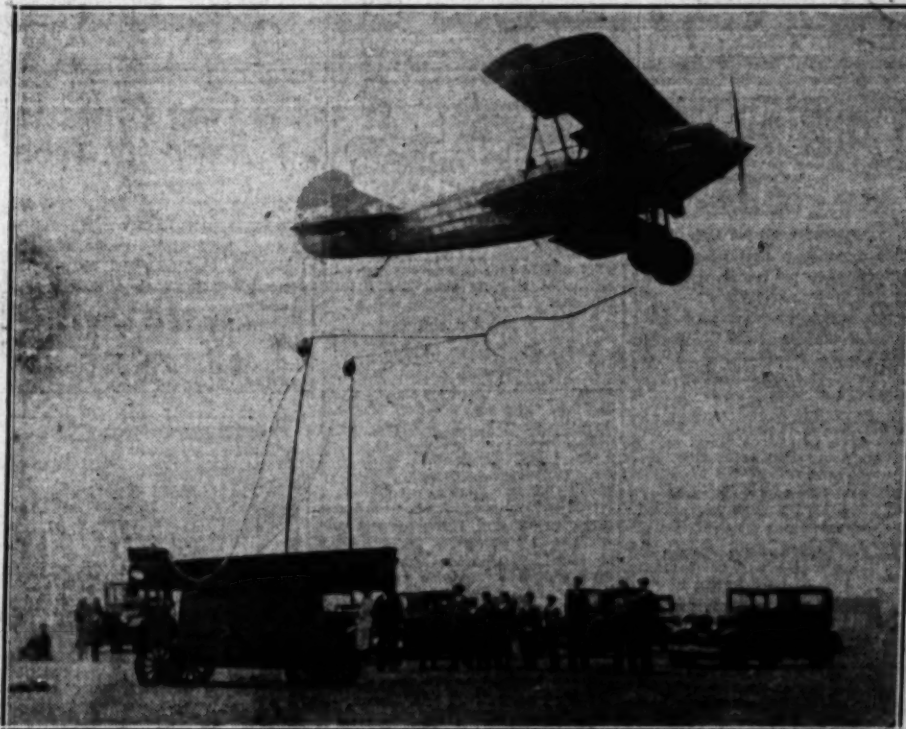

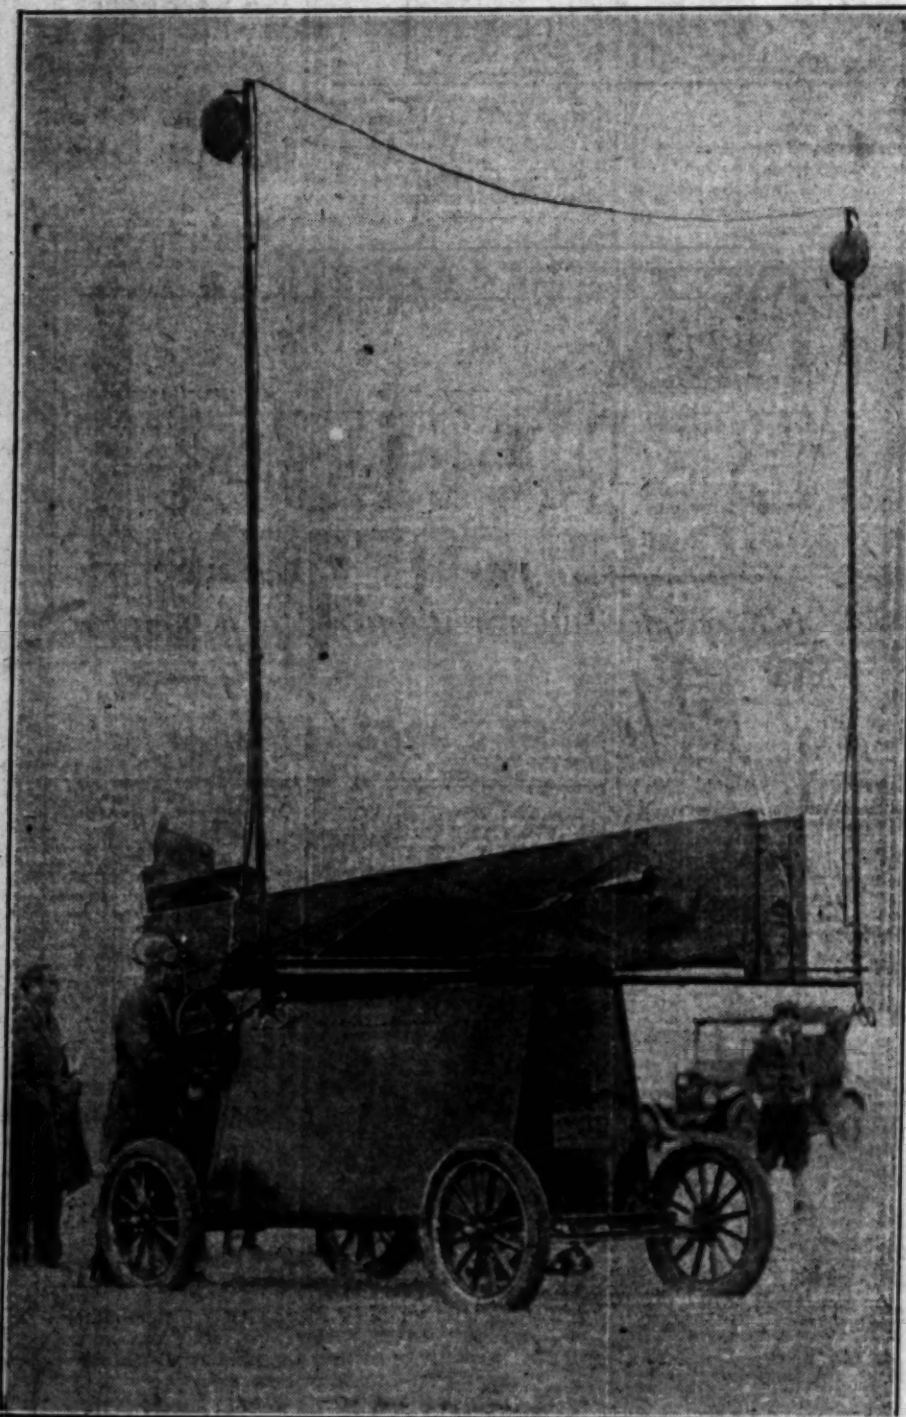

The closing hour for all other classes of want ads is 7:30 p.m. Saturday.

Co-operation in submitting copy today—Friday—will be appreciated.

# Question Mark's Record Threatened Through New Refueling Device

Flyers Using New Refueling Device Will Make Attempt to Break Record of the Question Mark when they take off from Curtiss Field, Long Island. The refueling device is shown at left, ready to supply the plane. Above the plane is shown picking up a load as it passes above the two antennae to which lifting lines are attached. (P. & A. photo.)

All That Was Left of the Home of Miss Julia... Minneapolis, Minn., after the recent... the front porch upon which she is... consoling contemplating the ruin. The... was the most violent that has swept... years. (P. & A. photo.)

The Finishing Touch is added to many smart ensembles this spring through the fingertip length coat similar to the one displayed above. (P. & A. photo.)

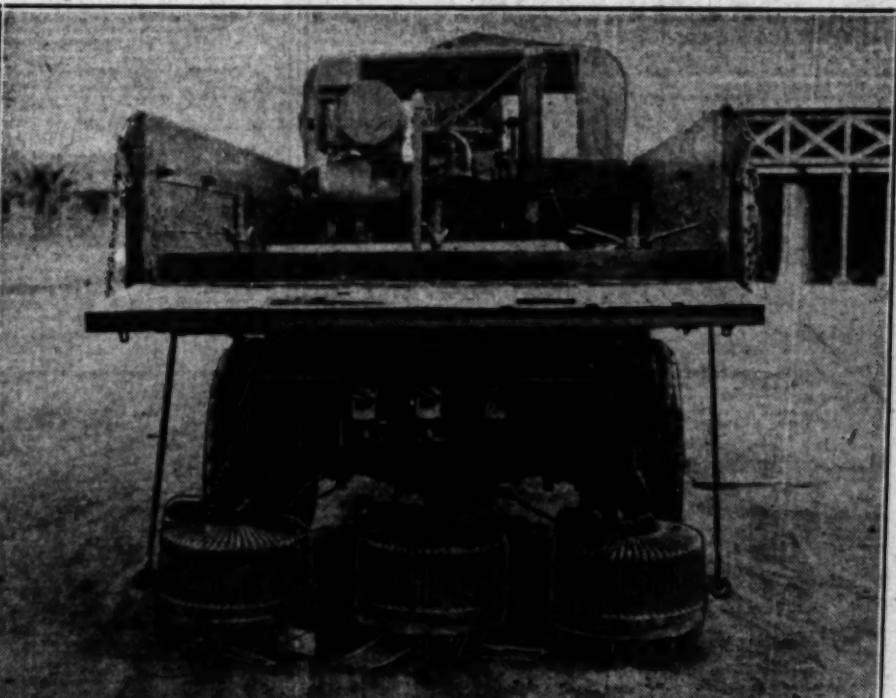

In a Highly Festive Frame of Mind, J. Thomas Heflin, Jr., son of the Senator from Alabama, arrived at New York from Panama aboard a liner last week and made statements which Heflin, Sr., is still explaining. Here is young Heflin coming down the gangplank. (P. & A. photo.)

The Flying Crosson Family Was Reunited a short time ago at San Diego, Joe Crosson returning from trip with Sir Hubert Wilkins to the Antarctic, and Marvel, his sister, from commercial flying in Alaska. The mother is pictured with them. (P. & A. photo.)

Air Mail Postage of \$60.75 Was Affixed to Fifty-eight Copies of The Times left Los Angeles for New York last night. Packages were addressed to J. Holmes, an official of the Texas Company. Violet Christ (right) and Eastburg are pictured above affixing the stamps. (Times photo.)

Hundreds of Pounds of Metal Fragments Have Been Picked Up Off Highways in Arizona through use of the powerful magnets attached to the rear of this truck. The combination has proved so efficient in ridding roads of material that ruin tires that more of them are to be put into commission. A single mile of road has been known to yield 1000 pounds of metal.

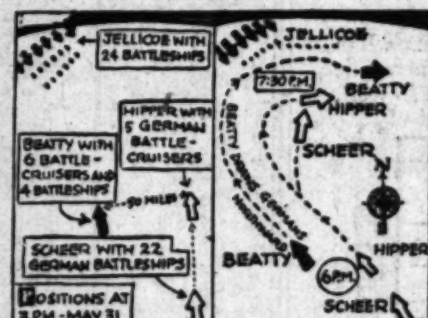

Charge of Manslaughter at Miami, Fla., was dismissed against Mrs. John D. Dodge of Detroit recently. Mrs. Dodge hit and killed D. B. Hennessy, 71, head of an oil company at Providence, R. I. The defendant was held only partly responsible for the tragedy. (P. & A. photo.)

## HIGH LIGHTS IN HISTORY

1313

The Story of the World War 83—The Battle of Jutland (Part 3).

by J. CARROLL MANSFIELD

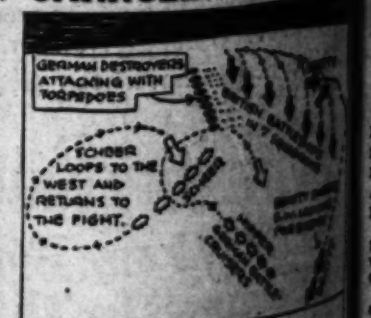

THE GREAT NAVAL BATTLE OF JUTLAND BEGAN AT 5 P. M., MAY 31, 1916, WHEN BEATTY'S CRUISER SQUADRON MET THE GERMAN SCOUTING FLEET IN THE NORTH SEA. A FIERCE ACTION TOOK PLACE IN WHICH TWO BRITISH BATTLE-CRUISERS WERE SUNK. AT 6 THE GERMAN MAIN FLEET CAME ON THE SCENE, AND BEATTY SPED NORTHWARD TO DRAW THE GERMAN WITHIN RANGE OF JELICOE.

JOINED BY THE ADVANCE CRUISERS OF JELICOE'S FLEET, BEATTY FIERCELY ENGAGED SCHEER AND HIPPER. IN THIS COMBAT THE BRITISH LOST ONE BATTLE CRUISER AND THREE ARMORED CRUISERS, WHILE THE GERMAN LOST ONLY THE LIGHT CRUISER "WIESBADEN" AT THIS CRITICAL JUNCTURE JELICOE CAME UP WITH THE BRITISH BATTLE FLEET

SOON THE LEADING VESSELS OF THE LINE OF GERMAN BATTLESHIPS HAD COME UNDER THE CONCENTRATED FIRE OF JELICOE'S BATTLESHIPS AND BEATTY'S CRUISERS. FROM THIS DANGEROUS SITUATION SCHEER ADROITLY EXTRICATED HIMSELF BY A BOLD WHEELING MOVEMENT TO THE WEST, COVERING THIS MANEUVER BY A DESTROYER ATTACK AGAINST THE BRITISH LINE.

SCHEER CAME BACK TO THE ATTACK, BUT THE GATHERING DARKNESS AND THE SMOKE FROM GUNS AND FIREWORKS HAD BLIND BATTLE WENT ON THROUGHOUT THE NIGHT AS THE BRITISH AND GERMAN FLEETS SEARCHED FOR EACH OTHER IN THE DARK.

## It's Summertime Now in Southern California

### Summer's New Accents

Hats, shoes, handbags, jewelry—even luggage gives a smart accent to one's vacation costume. DYAS has plenty of these "individual" summer accessories. A few are listed below.

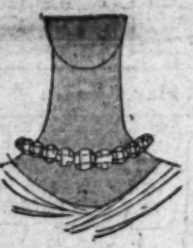

### Summer Hats, 10.00

Those soft, feather-weight straws—pary-mars, crochets, stitched silks and pastel felts—a DYAS feature at 10.00.

DYAS CO.—BOTH STORES

### Crystal Chokers, 5.95

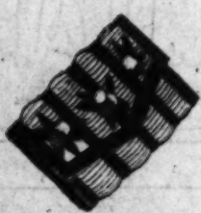

—Sterling silver clasps

Real rock crystals—Oriental cut—look as cool as sparkling water—and they are one of the smartest notes in summer costume jewelry.

DYAS CO.—BOTH STORES—STREET FLOOR

### New Raffia Handbags

2.00 to 5.95

Summer sports handbags from France. They harmonize with so many costumes. A new selection at DYAS—2.00 to 5.95.

DYAS CO.—BOTH STORES—STREET FLOOR

### Sorosis Pumps, 9.85

Black patent or satin—the pump that "fits in" to the summer wardrobe so gracefully. These were originally much higher than 9.85.

DYAS CO.—BOTH STORES

### Fitted Cases, 29.75

Women will welcome these to take on vacation trips. The 22-inch cowhide cases holding 13 pieces in shell or ivory (composition). Limited quantity at 29.75.

And remember the DYAS Sale of Trunks is still on—see the special at 45.00.

DYAS CO.—BOTH STORES—LOWER STREET FLOOR

### What of Summer's Dresses?

The clear bright pastels run through all DYAS dresses from a little sleeveless silk tennis frock at 16.50 to a lovely starched chiffon evening dress at 49.50. Women's and misses' sizes collectively in the group—at DYAS.

### And Coats? The New Silks

Over a pastel silk dress, a black, navy or beige silk coat creates the fashionable summer ensemble. DYAS features women's silk coats from 29.50 to 69.50. Sizes range from 14 to 40.

DYAS CO.—BOTH STORES—THIRD FLOOR

### Summer! Youth! Clothes!

—at Dyas today and Saturday

printed linen frocks—the extra dresses for the ensemble, 5.95.

crêpe de chine slips in sizes 12, 14 and 16—special, 2.95.

haskette coats with scarf collars have color accents, 8 to 12 years, 15.00, new felt hats, 5.00.

printed silks for juniors 8 to 14 go smartly into summer, 10.95.

DYAS CO.—BOTH STORES—FOURTH FLOOR

### —both DYAS stores are ready for all early vacationists

April and May, two of the loveliest months in Southern California, are vacation-time for those who wish to enjoy the resorts before they become crowded. Now the desert is in bloom. Now Del Monte and Coronado are most inviting.

"What shall we take with us?" becomes a pertinent question. DYAS is prepared to answer it with satisfaction. Let the few suggestions on this page indicate to you that every section is ready with the clothes you will enjoy wearing, the equipment you'll need to make your vacation a happy one.

### Summer Ensembles—and Their Fabrics

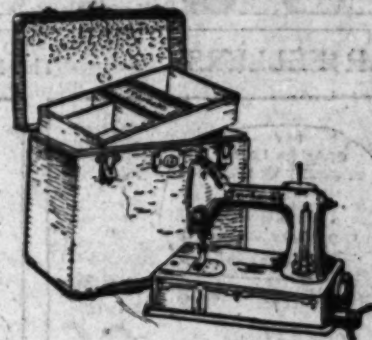

The ensemble glides smartly into summer by changing its fabric. DYAS presents many new versions of the summer ensemble and many coats and dresses for those who prefer to assemble their own ensembles. Silks, linens and cottons vie for favor. And for those who prefer to have their ensembles made, DYAS silk and cotton sections show a variety of fashionable fabrics.

### Happily, Dyas Has Anderson Gingham

No need to tell you how gingham has risen on the fashion list. The smartness of checks did it. For what checks are lovelier than those of gingham—particularly that peer of gingham—D. & J. Anderson. The quality that our great grandmothers enjoyed in these fine Scotch gingham now at DYAS. Large plaids for children, the yard, 1.35. Small checks and plain colors for grown-ups, 1.25 a yard. See them at DYAS.

DYAS CO.—BOTH STORES—SECOND FLOOR

### Sewhandy

### Now You May Sew in Your Own Patio!

—little "Sewhandy" made by Standard Machine Co., will do the work of a large machine. At DYAS now—67.50.

It weighs only 12 pounds! You may take it out to the patio or move it easily to any room in the house, put it on a little collapsible card table and presto! It is so easy to run—does all the work of a large machine and it is equipped with General Electric motor. See the "Sewhandy" at DYAS, priced at 67.50. Terms may be arranged if desired.

## Grid Bosses to Discuss Dictator

BERKELEY, April 11. (AP)—Whether the Pacific Coast Conference will have a football commissioner next season will be taken up by graduate managers of three members of the conference in a meeting here tomorrow. William Moonahan of California, Carl Loden of Oregon State and Earl Campbell of Washington were appointed at the last meeting of the conference to discuss the advisability of naming a football commissioner, to whom all grid-iron matters would be submitted. In advance of the meeting it is understood that definite action on the matter will be put over for another year.

## GAVUZZI WINS LAP IN DERBY

WHEELING (W. Va.) April 11. (AP)—Peter Gavuzzi of England did fifty-two miles in 2m. 45s. today to win the twelfth lap of C. C. P. 7's bunion derby. The lead in the race was retained by Ed Gardner, Seattle (Wash.) negro stepper, who was tied for third place in reaching the mountain state control point. Gardner, who is supported by Johnny S. J. Pacific (N. J.), policeman, as leader of the race last Monday, now has a total elapsed time of 7h. 53m. 46s.

Paul Simpson, Burlington (N. C.) aspirant for cross-country honors, was runner-up on today's lap, his time being 2h. 51m. 14s. Troy Trimble, Bakersfield, Cal., tied with Gardner for third place in 2h. 42m. 36s.

The twelfth chapter of the transcontinental endurance test started this morning at Waynesburg, Pa., with thirty-four runners taking off. Muddy roads compelled a change in the original route and added fifteen miles to the trek.

## WOODS TO PICK REFEREE

Although the Hudkins camp already has voiced a violent protest Commissioner James Woods may announce the referee of the Ace Hudkins-Armand Emanuel fight today. He has followed this procedure several days before all important battles ever since he has been in office—nearly a year and a half.

For the Godfrey-Uscudun fight a year ago last February he named George Blake days in advance. For the Loughran-Emanuel bout two months ago he selected Abe Roth before the struggle. The same for other big fights.

The Hudkins brothers—the Wildcat and his two brother managers, Clyde and Art—deplore this practice, and insist they must be taken into consultation on the matter or there will be no fight.

They want the commissioner to wait until the night of the fight to name the third man in the ring.

## HITTING THE HIGH STICKS

## CALIFORNIA PROTEST FUTILE

Site Chosen for Winter Olympic Games Cannot Now Be Switched to Mountain Resort; No Appeal From Decision Reached by Committee

BY ALAN J. GOULD (Associated Press Staff Editor)  
NEW YORK, April 11. (AP)—It seems a trifle too cool and distant a proposition to get warmed up now over the award of the 1932 Olympic winter sports to Lake Placid, New York, instead of to one of the higher altitudes of California, nor do close observers expect any extended controversy over this division of competition between the East and Far West. In spite of the challenge of California to the decision of the international Olympic authorities.

## TO UNVEIL BOXING TROPHY

NEW YORK, April 11. (AP)—The "Muldoon-Turner" trophy, presented to pugilism as a symbol of the heavyweight championship by Gene Tunney, retired title-holder, and William Muldoon, 33-year-old member of the New York State Athletic Commission, will be unveiled in the lobby of Madison Square Garden next Wednesday.

The five trustees of the trophy have invited 250 sports figures and prominent sportmen to the dedication ceremonies. Mayor James J. Walker of New York will be among the speakers.

James J. Corbett, Jim Jeffries, Jack Johnson, Tommy Burns, Jess Willard, Jack Dempsey and representatives of other champions have been asked to attend.

## VELVASHEEN

a shirting of distinction!

RARELY do you find a Broadcloth that retains its original lustrous beauty as does "Velvasheen." Constant wear and laundering have but slight effect on this miraculous fabric... from the looms of an odd little English cotton mill. It has been hand-somely tailored for Desmond's... in collar attached and neckband styles!

breaks they might be able to score forty-five points. This is an optimistic estimate and the probability that the locals will be able to tally more than thirty-five is so.

George and Ruth should do pretty well in the outfield, although the third baseman of Stanford will make Whitler colored boy step to catch in races.

Goodheart and Brown should pitch points in the middle and half-mile. The former might win one or both races if he can keep his legs good.

McKinnam, of course, will force the Gxy star to the limit, unless the Times Herald decides to give him rest after his strenuous efforts during the Southern California last week.

Stanford will do a lot of damage in the hurdles, shot, discus and javelin. The locals probably won't be more than six points altogether.

♦♦♦♦♦

The local aggregation will play four games in the next five days, meeting the Cardinals this afternoon at Palo Alto, the Broncos tomorrow at Santa Clara, California Motors today afternoon at Berkeley and the Santa Clara Indians tomorrow afternoon at Oakland.

Coach Sturtebeger took four hurriers with him for the trip. The athletic department is lamentably weak on the track.

**COACH STURTEBEEGER**

**(WHEELING)**

Gray and Gaudin are the only dependable chucker for the locals. Graham will pitch two of the games. The third Stanford and California franchises, where the series victories are at stake, but the other games will have to be won by the sophomore moundmen, Buddy Foster, Vernon Charleston and Ler Duke.

The rest of the U.C.L.A. line-up for the northern invasion will be as follows:

♦♦♦♦♦

top and half ought to top the jump, while Ingram may grab one in the pole vault.

## CAN'T SWITCH WINTER GAMES

(Continued from Eleventh Page)

partially and without recommendation of any sort. It was our feeling that it was a matter for the committee as a whole to decide."

California quite naturally desired to conduct the entire Olympic program of 1932, from the first ski jump of the winter to the last shot-put of the summer. It had laid extensive plans to do so, but the Olympic ruling powers seem to feel that by getting the major games for Los Angeles, the United States will ensure the program that will furnish a background of ice and snow.

It follows the precedents of 1904 and 1928. In both years, Switzerland obtained the sword for the winter sports, preliminary to the Olympic events at Paris andsterdam.

## BRUINS MEET CARDINALS NINE THIS AFTERNOON

STANFORD UNIVERSITY, April 11.—With the series split, the U. C. L. A. and Stanford baseball teams play here tomorrow in the deciding contest of their annual set-in. The Bruins took the first game, 4-3, two weeks ago in Los Angeles, but Spud Harder conducted Stanford to a 5-1 win in the second affair. Whitely Graham is expected to start for the Bruins tomorrow and Coach Harry Welter will have to choose his twirler from among Taylor, Lewis and Smalling.

On Saturday the Cards mix with California in the second game of the big series, the initial tilt of which the Bears took, 7-3.
